Mercury Systems Receives \$4.7M in Orders for Airborne Electronic Protection RF Microelectronics

ANDOVER, Mass., Oct. 17, 2017 (GLOBE NEWSWIRE) -- Mercury Systems, Inc. (NASDAQ:MRCY) (www.mrcy.com) announced it received \$4.7 million in orders from a leading defense prime contractor for high performance radio frequency (RF) subsystems integrated into an advanced airborne electronic protection system. The order was booked in the Company's fiscal 2018 first quarter and is expected to be shipped over the next several quarters.

Mercury's entire suite of high reliability RF and microwave solutions include components, modules, and pre-integrated subsystems that deliver differentiated capabilities for electronic warfare and radar applications. With an industry-leading portfolio of solutions up to 140GHz, the Company's innovative packaging expertise enables optimization of size, weight and power without sacrificing performance or affordability.

"We are honored to provide highly miniaturized and ruggedized RF microelectronics essential for our military's successful domination of the heavily contested electromagnetic spectrum," said Kevin Beals, Vice President and General Manager of Mercury's RF and Microwave group. "With multiple Advanced Microelectronics Centers located throughout the United States, Mercury is uniquely positioned to design and deliver the most affordable, compact and sophisticated RF microelectronics needed to maintain a strategic and tactical edge for our military forces across the globe."

Forward-Looking Safe Harbor Statement

This press release contains certain forward-looking statements, as that term is defined in the Private Securities Litigation Reform Act of 1995, including those relating to the products and services described herein. You can identify these statements by the use of the words "may," "will," "could," "should," "would," "plans," "expects," "anticipates," "continue," "estimate," "project," "intend," "likely," "forecast," "probable," "potential," and similar expressions. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected or anticipated. Such risks and uncertainties include, but are not limited to, continued funding of defense programs, the timing and amounts of such funding, general economic and business conditions, including unforeseen weakness in the Company's markets, effects of continued geopolitical unrest and regional conflicts, competition, changes in technology and methods of marketing, delays in completing engineering and manufacturing programs, changes in customer order patterns, changes in product mix, continued success in technological advances and delivering technological innovations, changes in, or in the U.S. Government's interpretation of, federal export control or procurement rules and regulations, market acceptance of the Company's products, shortages in components, production delays or unanticipated expenses due to performance quality issues with outsourced components, inability to fully realize the expected benefits from acquisitions and restructurings, or delays in realizing such benefits, challenges in integrating acquired businesses and achieving anticipated synergies, increases in interest rates, changes to export regulations, increases in tax rates, changes to generally accepted accounting principles, difficulties in retaining key employees and customers, unanticipated costs under fixed-price service and system integration engagements, and various other factors beyond our control. These risks and uncertainties also include such additional risk factors as are discussed in the Company's filings with the U.S. Securities and Exchange Commission, including its Annual Report on Form 10-K for the fiscal year ended June 30, 2017. The Company cautions readers not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. The Company undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made.
