

Mercury Systems Receives \$3.8M Microelectronics Order for Airborne Electronic Warfare Application

November 20, 2017

ANDOVER, Mass., Nov. 20, 2017 (GLOBE NEWSWIRE) -- Mercury Systems, Inc. (NASDAQ:MRCY) (www.mrcy.com) announced it received a follow-on \$3.8 million order from a leading defense prime contractor for multi-chip module devices integrated into an advanced airborne electronic warfare system. The order was booked in the Company's fiscal 2018 second quarter and is expected to be shipped over the next several quarters.

Mercury's broad portfolio of secure digital microelectronic solutions are designed and manufactured exclusively in the Company's Defense Microelectronics Activity (DMEA)-trusted Advanced Microelectronics Center in Phoenix, Ariz. The Company's state-of-the-art three-dimensional packaging technology delivers maximum space-savings in a highly ruggedized ball grid array (BGA) package designed for harsh military environments.

"We are honored to continue supplying trusted microelectronics enabling our military forces' most advanced airborne platforms to dominate the electromagnetic spectrum," said Iain Mackie, Vice President and General Manager of Mercury's Microelectronic Secure Solutions group. "Defense prime contractors and our military forces can count on Mercury's next-generation business model for long-term supply continuity of the most affordable, compact and high-performance microelectronics solutions."

Forward-Looking Safe Harbor Statement

This press release contains certain forward-looking statements, as that term is defined in the Private Securities Litigation Reform Act of 1995, including those relating to the products and services described herein. You can identify these statements by the use of the words "may," "will," "could," "should," "would," "plans," "expects," "anticipates," "continue," "estimate," "project," "intend," "likely," "forecast," "probable," "potential," and similar expressions. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected or anticipated. Such risks and uncertainties include, but are not limited to, continued funding of defense programs, the timing and amounts of such funding, general economic and business conditions, including unforeseen weakness in the Company's markets, effects of continued geopolitical unrest and regional conflicts, competition, changes in technology and methods of marketing, delays in completing engineering and manufacturing programs, changes in customer order patterns, changes in product mix, continued success in technological advances and delivering technological innovations, changes in, or in the U.S. Government's interpretation of, federal export control or procurement rules and regulations, market acceptance of the Company's products, shortages in components, production delays or unanticipated expenses due to performance quality issues with outsourced components, inability to fully realize the expected benefits from acquisitions and restructurings, or delays in realizing such benefits, challenges in integrating acquired businesses and achieving anticipated synergies, increases in interest rates, changes to cyber-security regulations and requirements, increases in tax rates, changes to generally accepted accounting principles, difficulties in retaining key employees and customers, unanticipated costs under fixed-price service and system integration engagements, and various other factors beyond our control. These risks and uncertainties also include such additional risk factors as are discussed in the Company's filings with the U.S. Securities and Exchange Commission, including its Annual Report on Form 10-K for the fiscal year ended June 30, 2017. The Company cautions readers not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. The Company undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made.
