

Mercury Systems Receives \$3.9M Secure Solid-State Drive Order for Airborne Mission Management Application

Jan 25, 2018 at 4:15 PM EST

ANDOVER, Mass., Jan. 25, 2018 (GLOBE NEWSWIRE) -- Mercury Systems, Inc. (NASDAQ:MRCY) (www.mrcy.com) announced it received a \$3.9 million follow-on order from a leading defense prime contractor for custom-engineered secure solid-state drives (SSD) deployed in an airborne mission management application. The order was booked in the Company's fiscal 2018 second quarter and is expected to be shipped over the next several quarters.

A pioneer in the development and commercialization of military-grade SSD devices with the highest levels of embedded security, the Company's portfolio of self-encrypting storage products are designed and manufactured in its the Phoenix, Ariz. Advanced Microelectronics Center. The ARMOR™ cryptographic engine at the heart of its secure storage portfolio integrates advanced security features with performance-enhancing algorithms. Recognizing that no two security implementations have the same requirements, Mercury's product portfolio supports the industry's widest range of encryption key management solutions. The Company's most sophisticated data storage offerings also support self-destruct capability.

"Our military forces deployed in hostile threat environments deserve the most secure data storage solution without compromising affordability. We are privileged to receive this follow-on order to support both our customer and our nation's warfighters," said Charlie Leader, Senior Vice President and General Manager of Mercury's Advanced Microelectronics Solutions group. "As a leading provider of secure and safety-critical solutions addressing the defense industry's most challenging problems, Mercury remains steadfast in its commitment to support our military forces with affordable and highly agile commercial technologies."

Forward-Looking Safe Harbor Statement

This press release contains certain forward-looking statements, as that term is defined in the Private Securities Litigation Reform Act of 1995, including those relating to fiscal 2018 business performance and beyond and the Company's plans for growth and improvement in profitability and cash flow. You can identify these statements by the use of the words "may," "will," "could," "should," "would," "plans," "expects," "anticipates," "continue," "estimate," "project," "intend," "likely," "forecast," "probable," "potential," and similar expressions. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected or anticipated. Such risks and uncertainties include, but are not limited to, continued funding of defense programs, the timing and amounts of such funding, general economic and business conditions, including unforeseen weakness in the Company's markets, effects of any U.S. Federal government shutdown or extended continuing resolution, effects of continued geopolitical unrest and regional conflicts, competition, changes in technology and methods of marketing, delays in completing engineering and manufacturing programs, changes in customer order patterns, changes in product mix, continued success in technological advances and delivering technological innovations, changes in, or in the U.S. Government's interpretation of, federal export control or procurement rules and regulations, market acceptance of the Company's products, shortages in components, production delays due to performance quality issues with outsourced components, inability to fully realize the expected benefits from acquisitions and restructurings, or delays in realizing such benefits, challenges in integrating acquired businesses and achieving anticipated synergies, changes to cyber-security regulations and requirements, changes in tax rates or tax regulations, changes to generally accepted accounting principles, difficulties in retaining key employees and customers, unanticipated costs under fixed-price service and system integration engagements, and various other factors beyond our control. These risks and uncertainties also include such additional risk factors as are discussed in the Company's filings with the U.S. Securities and Exchange Commission, including its Annual Report on Form 10-K for the fiscal year ended June 30, 2017. The Company cautions readers not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. The Company undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made.
