

Mercury Systems Receives \$2.0M Order for Tactical EO/IR Subsystem

February 8, 2018

Enterprise Architecture Solution Designed to Meet the Needs of Multiple Defense Programs

ANDOVER, Mass., Feb. 08, 2018 (GLOBE NEWSWIRE) -- Mercury Systems, Inc. (NASDAQ:MRCY) (www.mrcy.com) announced it has received an initial \$2.0 million order for an Electro-Optic/Infra-Red (EO/IR) image processing subsystem from a major defense prime contractor. The subsystem is an enterprise architecture solution designed to apply to multiple programs and missions. The order was booked in the Company's fiscal 2018 second quarter and is expected to be shipped over the next several quarters.

The image processing subsystem with BuiltSECURE™ technology includes numerous modules for GPU-based image processing, I/O, system management, power, and interconnect pre-integrated with a backplane and chassis. The open system architecture uses an advanced cooling technology to allow the subsystem to operate in extreme conditions of temperature, altitude, and vibration while providing the highest level of floating point performance delivered in a tactical environment.

"Mercury worked closely with our customer as an extension of their engineering team," said Joe Plunkett, General Manager of Mercury's Sensor Processing group. "Together we designed an EO/IR solution that is scalable and tailorable for a variety of airborne platforms and mission profiles."

For more information on Mercury solutions for EO/IR applications, visit www.mrcy.com/EOIR or contact Mercury at (866) 627-6951 or info@mrcy.com.

Mercury Systems – Innovation That Matters™

Mercury Systems (NASDAQ:MRCY) is a leading commercial provider of secure sensor and safety-critical processing subsystems. Optimized for customer and mission success, Mercury's solutions power a wide variety of critical defense and intelligence programs. Headquartered in Andover, Mass., Mercury is pioneering a next-generation defense electronics business model specifically designed to meet the industry's current and emerging technology needs. Forward-Looking Safe Harbor Statement

This press release contains certain forward-looking statements, as that term is defined in the Private Securities Litigation Reform Act of 1995, including those relating to fiscal 2018 business performance and beyond and the Company's plans for growth and improvement in profitability and cash flow. You can identify these statements by the use of the words "may," "will," "could," "should," "would," "plans," "expects," "anticipates," "continue," "estimate," "project," "intend," "likely," "forecast," "probable," "potential," and similar expressions. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected or anticipated. Such risks and uncertainties include, but are not limited to, continued funding of defense programs, the timing and amounts of such funding, general economic and business conditions, including unforeseen weakness in the Company's markets, effects of any U.S. Federal government shutdown or extended continuing resolution, effects of continued geopolitical unrest and regional conflicts, competition, changes in technology and methods of marketing, delays in completing engineering and manufacturing programs, changes in customer order patterns, changes in product mix, continued success in technological advances and delivering technological innovations, changes in, or in the U.S. Government's interpretation of, federal export control or procurement rules and regulations, market acceptance of the Company's products, shortages in components, production delays due to performance quality issues with outsourced components, inability to fully realize the expected benefits from acquisitions and restructurings, or delays in realizing such benefits, challenges in integrating acquired businesses and achieving anticipated synergies, changes to cyber-security regulations and requirements, changes in tax rates or tax regulations, changes to generally accepted accounting principles, difficulties in retaining key employees and customers, unanticipated costs under fixed-price service and system integration engagements, and various other factors beyond our control. These risks and uncertainties also include such additional risk factors as are discussed in the Company's filings with the U.S. Securities and Exchange Commission, including its Annual Report on Form 10-K for the fiscal year ended June 30, 2017. The Company cautions readers not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. The Company undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made.
