

Mercury Systems Receives \$10.3M Order for Secure, Rugged Processing Subsystems

Sep 4, 2018 at 4:15 PM EDT

ANDOVER, Mass., Sept. 04, 2018 (GLOBE NEWSWIRE) -- Mercury Systems, Inc. (NASDAQ: MRCY, www.mrcy.com) announced it received a \$10.3 million order from a leading defense prime contractor for secure, rugged, embedded processing subsystems to perform advanced sensor processing on a mobile platform. The order was booked in the Company's fiscal 2018 fourth quarter and is expected to be shipped over the next several quarters.

The Company's BuiltSECURE™ technologies, advanced embedded cooling and ruggedization capabilities are ideally suited to the needs of SWaP-constrained processing applications that require the highest levels of built-in security, reliability and performance, even in the most hostile environments.

"This order underscores the trust we have earned by working closely with our major defense prime contractor customer to meet their stringent embedded processing requirements, which include system-wide security so the platform can go anywhere," said Joe Plunkett, Mercury's Senior Director and General Manager for Sensor Processing Solutions. "Our subsystems are made secure with BuiltSECURE technologies and are exceptionally rugged, giving our customer a competitive advantage as their solution is deployable into the harshest, most contested environments."

Forward-Looking Safe Harbor Statement

This press release contains certain forward-looking statements, as that term is defined in the Private Securities Litigation Reform Act of 1995, including those relating to fiscal 2019 business performance and beyond and the Company's plans for growth and improvement in profitability and cash flow. You can identify these statements by the use of the words "may," "will," "could," "should," "would," "plans," "expects," "anticipates," "continue," "estimate," "project," "intend," "likely," "forecast," "probable," "potential," and similar expressions. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected or anticipated. Such risks and uncertainties include, but are not limited to, continued funding of defense programs, the timing and amounts of such funding, general economic and business conditions, including unforeseen weakness in the Company's markets, effects of any U.S. Federal government shutdown or extended continuing resolution, effects of continued geopolitical unrest and regional conflicts, competition, changes in technology and methods of marketing, delays in completing engineering and manufacturing programs, changes in customer order patterns, changes in product mix, continued success in technological advances and delivering technological innovations, changes in, or in the U.S. Government's interpretation of, federal export contractor procurement rules and regulations, market acceptance of the Company's products, shortages in components, production delays or unanticipated expenses due to performance quality issues with outsourced components, inability to fully realize the expected benefits from acquisitions and restructurings or delays in realizing such benefits, challenges in integrating acquired businesses and achieving anticipated synergies, increases in interest rates, changes to cyber-security regulations and requirements, changes in tax rates or tax regulations, changes to generally accepted accounting principles, difficulties in retaining key employees and customers, unanticipated costs under fixed-price service and system integration engagements, and various other factors beyond our control. These risks and uncertainties also include such additional risk factors as are discussed in the Company's filings with the U.S. Securities and Exchange Commission, including its Annual Report on Form 10-K for the fiscal year ended June 30, 2018. The Company cautions readers not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. The Company undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made.
