

## Mercury Systems Receives \$9.0M RF Microelectronics Order for Advanced Airborne Electronic Warfare Application

April 23, 2019

ANDOVER, Mass., April 23, 2019 (GLOBE NEWSWIRE) -- Mercury Systems, Inc. (NASDAQ: MRCY, [www.mrcy.com](http://www.mrcy.com)) announced it received a \$9.0 million follow-on order from a leading defense prime contractor for precision-engineered radio frequency (RF) subsystems integrated into an advanced airborne electronic warfare program. The order was booked in the Company's fiscal 2019 third quarter and is expected to be shipped over the next several quarters.

Mercury's broad portfolio of SWaP-optimized RF and microwave solutions include high-power GaN amplifiers, filters, integrated multifunction assemblies and custom-engineered subsystems. The Company's highly skilled engineering team has developed advanced design and simulation tools enabling rapid prototyping of new designs with a seamless transition to volume production. Mercury's three Advanced Microelectronics Centers (AMC) utilize highly automated manufacturing processes to deliver affordable and scalable production over the entire lifecycle of a program. These AMC facilities are uniquely designed to provide an assured supply of authentic, high-reliability microelectronics for military programs spanning the land, air, sea and space domains.

"As a forward-looking supplier of electronic warfare solutions optimized for size, weight, power and performance, we are honored to receive this prominent order from our valued customer," said Kevin Beals, Vice President and General Manager of Mercury's RF and Microwave group. "Our highly differentiated capabilities in affordable RF microelectronics design and production are second to none in the defense industry."

For more information about Mercury's entire portfolio of RF and microwave solutions, visit <http://www.mrcy.com/rf> or contact Mercury at (866) 627-6951 or [RF.microwave@mrcy.com](mailto:RF.microwave@mrcy.com).

### Mercury Systems – Innovation That Matters®

Mercury Systems is a leading commercial provider of secure sensor and safety-critical processing subsystems. Optimized for customer and mission success, Mercury's solutions power a wide variety of critical defense and intelligence programs. Headquartered in Andover, Mass., Mercury is pioneering a next-generation defense electronics business model specifically designed to meet the industry's current and emerging technology needs. ### Forward-Looking Safe Harbor Statement

This press release contains certain forward-looking statements, as that term is defined in the Private Securities Litigation Reform Act of 1995, including those relating to fiscal 2019 business performance and beyond and the Company's plans for growth and improvement in profitability and cash flow. You can identify these statements by the use of the words "may," "will," "could," "should," "would," "plans," "expects," "anticipates," "continue," "estimate," "project," "intend," "likely," "forecast," "probable," "potential," and similar expressions. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected or anticipated. Such risks and uncertainties include, but are not limited to, continued funding of defense programs, the timing and amounts of such funding, general economic and business conditions, including unforeseen weakness in the Company's markets, effects of any U.S. Federal government shutdown or extended continuing resolution, effects of continued geopolitical unrest and regional conflicts, competition, changes in technology and methods of marketing, delays in completing engineering and manufacturing programs, changes in customer order patterns, changes in product mix, continued success in technological advances and delivering technological innovations, changes in, or in the U.S. Government's interpretation of, federal export contractor procurement rules and regulations, market acceptance of the Company's products, shortages in components, production delays or unanticipated expenses due to performance quality issues with outsourced components, inability to fully realize the expected benefits from acquisitions and restructurings or delays in realizing such benefits, challenges in integrating acquired businesses and achieving anticipated synergies, increases in interest rates, changes to cyber-security regulations and requirements, changes in tax rates or tax regulations, changes to generally accepted accounting principles, difficulties in retaining key employees and customers, unanticipated costs under fixed-price service and system integration engagements, and various other factors beyond our control. These risks and uncertainties also include such additional risk factors as are discussed in the Company's filings with the U.S. Securities and Exchange Commission, including its Annual Report on Form 10-K for the fiscal year ended June 30, 2018. The Company cautions readers not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. The Company undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made.
