

New Solid-State Drive Delivers Fast, Secure Storage

December 3, 2020

Ultra-portable, water-resistant solid-state drive integrated with industry-leading encryption

ANDOVER, Mass., Dec. 03, 2020 (GLOBE NEWSWIRE) -- Mercury Systems Inc. (NASDAQ: MRCY, www.mrcy.com), a leader in trusted, secure mission-critical technologies for aerospace and defense, today announced the MissionPak™ SLC ultra-portable secure solid-state drive (SSD) for mission-critical applications requiring reliability, security and ruggedization. Approximately the same size as a typical commercial USB flash drive, Mercury's latest secure SSD has been precision-engineered to withstand the harshest operating environments while simultaneously protecting sensitive data from cyberattack.

"As the preeminent commercial supplier of secure military-grade SSD devices, our latest MissionPak product sets the bar for handheld removable storage with revolutionary data protection," said Chris Opoczynski, vice president and general manager, Mercury Data. "It's ideally suited for customer applications where reliability, security and ruggedization are critical for mission success."

Optimized for applications such as command, control, communications, computers and intelligence (C4I) and avionics, MissionPak SSDs use AES-256 XTS encryption, the strongest available on the market today, have the latest generation of NAND flash technology and are packaged into compact, water-resistant, self-destructing form factors for secure use in harsh environments. Able to clear themselves in less than 10 seconds to protect data, the MissionPak SSDs have the fastest erase time available in the market. The drives are available in 128 GB or 256 GB storage configurations, weigh only 80 grams (approximately 0.18 pounds) and fit in the palm of the hand.

Operating at the intersection of high tech and defense, Mercury Systems is the leader in making trusted, secure mission-critical technologies profoundly more accessible. Our work is inspired by our purpose of delivering Innovation That Matters by and for People Who Matter, to make the world a safer, more secure place for all. Forward-Looking Safe Harbor Statement

This press release contains certain forward-looking statements, as that term is defined in the Private Securities Litigation Reform Act of 1995, including those relating to the acquisitions described herein and to fiscal 2021 business performance and beyond and the Company's plans for growth and improvement in profitability and cash flow. You can identify these statements by the use of the words "may," "will," "could," "should," "would," "plans," "expects," "anticipates," "continue," "estimate," "project," "intend," "likely," "forecast," "probable," "potential," and similar expressions. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected or anticipated. Such risks and uncertainties include, but are not limited to, continued funding of defense programs, the timing and amounts of such funding, general economic and business conditions, including unforeseen weakness in the Company's markets, effects of epidemics and pandemics such as COVID, effects of any U.S. federal government shutdown or extended continuing resolution, effects of continued geopolitical unrest and regional conflicts, competition, changes in technology and methods of marketing, delays in completing engineering and manufacturing programs, changes in customer order patterns, changes in product mix, continued success in technological advances and delivering technological innovations, changes in, or in the U.S. Government's interpretation of, federal export control or procurement rules and regulations, market acceptance of the Company's products, shortages in components, production delays or unanticipated expenses due to performance quality issues with outsourced components, inability to fully realize the expected benefits from acquisitions and restructurings, or delays in realizing such benefits, challenges in integrating acquired businesses and achieving anticipated synergies, increases in interest rates, changes to industrial security and cyber-security regulations and requirements, changes in tax rates or tax regulations, changes to interest rate swaps or other cash flow hedging arrangements, changes to generally accepted accounting principles, difficulties in retaining key employees and customers, unanticipated costs under fixed-price service and system integration engagements, and various other factors beyond our control. These risks and uncertainties also include such additional risk factors as are discussed in the Company's filings with the U.S. Securities and Exchange Commission, including its Annual Report on Form 10-K for the fiscal year ended July 3, 2020. The Company cautions readers not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. The Company undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made.
