

Mercury Systems awarded \$165M contract for secure mission system flight data recorders from U.S. Air Force

Feb 28, 2022 at 4:15 PM EST

ANDOVER, Mass., Feb. 28, 2022 (GLOBE NEWSWIRE) -- Mercury Systems, Inc. (NASDAQ: MRCY, www.mrcy.com), a leader in trusted, secure mission-critical technologies for aerospace and defense, announced it received a \$165 million firm-fixed-price indefinite-delivery/indefinite-quantity (IDIQ) contract award from the U.S. Air Force for secure flight data recorders in support of the secure mission data systems (SMDS) on the service's F-16 fleet. These flight data recorders will help provide improved performance, security and reliability for the F-16's current and future mission needs. The award received in the Company's fiscal 2022 third quarter included an initial \$16.4 million order and has a 72-month planned performance and shipment period.

Why It Matters

"Our defense customers are looking for solutions that minimize cost, reduce program risk and deliver proven performance and reliability," said Brian Perry, EVP and president, Mercury Processing. "As an independent domestic supplier of key defense-grade microelectronics, they depend on us to provide the purpose-built technology they need to meet their challenges, and we look forward to working as a trusted partner to deliver systems that protect individuals and communities around the world."

Mercury was able to showcase an elegant solution that merged two systems into one. This unique value allowed the DoD to proceed without modification to any existing software on the F-16, while significantly advancing system functionality. Additionally, the new solution provides open system architecture elements aligned to the government's open systems mandate that offer a growth path to address future mission needs quickly and cost-effectively.

Mercury envisions, creates and delivers innovative technology solutions purpose-built to meet its customers' most pressing high-tech needs. For more information, visit mrcy.com or contact Mercury at (866) 627-6951 or info@mrcy.com.

Mercury Systems – Innovation That Matters®

Mercury Systems is a global commercial technology company serving the aerospace and defense industry. Headquartered in Andover, Mass., the company delivers trusted, secure open architecture processing solutions powering a broad range of mission-critical applications in the most challenging and demanding environments. Inspired by its purpose of delivering Innovation that Matters, By and For People Who Matter, Mercury helps make the world a safer, more secure place for all. Forward-Looking Safe Harbor Statement

This press release contains certain forward-looking statements, as that term is defined in the Private Securities Litigation Reform Act of 1995, including those relating to the products and services discussed herein and to fiscal 2022 business performance and beyond and the Company's plans for growth and improvement in profitability and cash flow. You can identify these statements by the use of the words "may," "will," "could," "should," "would," "plans," "expects," "anticipates," "continue," "estimate," "project," "intend," "likely," "forecast," "probable," "potential," and similar expressions. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected or anticipated. Such risks and uncertainties include, but are not limited to, continued funding of defense programs, the timing and amounts of such funding, general economic and business conditions, including unforeseen weakness in the Company's markets, effects of epidemics and pandemics such as COVID, effects of any U.S. Federal government shutdown or extended continuing resolution, effects of continued geopolitical unrest and regional conflicts, competition, changes in technology and methods of marketing, delays in completing engineering and manufacturing programs, changes in customer order patterns, changes in product mix, continued success in technological advances and delivering technological innovations, changes in, or in the U.S. Government's interpretation of, federal export control or procurement rules and regulations, changes in, or in the interpretation or enforcement of environmental rules and regulations, market acceptance of the Company's products, shortages in or delays in receiving components, production delays or unanticipated expenses due to performance quality issues with outsourced components, inability to fully realize the expected benefits from acquisitions, restructurings and value creation initiatives such as 1MPACT, or delays in realizing such benefits, challenges in integrating acquired businesses and achieving anticipated synergies, effects of shareholder activism, increases in interest rates, changes to industrial security and cyber-security regulations and requirements, changes in tax rates or tax regulations, changes to interest rate swaps or other cash flow hedging arrangements, changes to generally accepted accounting principles, difficulties in retaining key employees and customers, unanticipated costs under fixed-price service and system integration engagements, and various other factors beyond our control. These risks and uncertainties also include such additional risk factors as are discussed in the Company's filings with the U.S. Securities and Exchange Commission, including its Annual Report on Form 10-K for the fiscal year ended July 2, 2021. The Company cautions readers not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. The Company undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made.
