

Mercury Systems and Nightwing Collaborate to Enhance Cybersecurity for Aerospace and Defense Systems

Oct 6, 2025 at 7:00 AM EDT

ANDOVER, Mass., Oct. 06, 2025 (GLOBE NEWSWIRE) -- Mercury Systems, Inc. (NASDAQ: MRCY, www.mrcy.com), a global technology company that delivers mission-critical processing to the edge, and Nightwing, the cyber and national security solutions company defining the edge of possible to advance our nation's interests, today announced an agreement to enhance the cyber resiliency of Mercury Systems hardware with Nightwing cyber resiliency technology.

Through this agreement, the companies will offer pre-integrated cybersecurity and anti-tamper solutions that enhance the integrity of applications for the entirety of their runtimes. This collaboration gives government customers an expertly curated set of security capabilities shaped by Nightwing's experience spanning U.S. military and intelligence community missions.

"This agreement brings together Mercury's trusted hardware technology portfolio with one of the nation's foremost cybersecurity providers to better protect critical customer missions," said Tom Smelker, Mercury's Senior Vice President of Processing Technologies. "Collaboration between commercial suppliers increases delivered capability while reducing total cost of ownership. Together we will give our customers and partners more options to meet their performance, affordability, and maintainability needs."

"Mission-critical systems are more open and connected than ever before," said Tim Zentz, Nightwing's Vice President of Cyber Offense and Defense Experts (CODEX). "Cyberattacks can come from unexpected vectors—over the air, through compromised components in the supply chain, or even through infected maintenance equipment. The integration of our cyber resiliency technology with Mercury's industry-leading hardware products and solutions will provide customers with greater security and faster, more efficient fielding of equipment."

Mercury Systems – Innovation that matters®

Mercury Systems is a global technology company that delivers mission-critical processing power to the edge, making advanced technologies profoundly more accessible for today's most challenging aerospace and defense missions. The Mercury Processing Platform allows customers to tap into innovative capabilities from silicon to system scale, turning data into decisions on timelines that matter. Mercury's products and solutions are deployed in more than 300 programs and across 35 countries, enabling a broad range of applications in mission computing, sensor processing, command and control, and communications. Mercury is headquartered in Andover, Massachusetts, and has more than 20 locations worldwide. To learn more, visit mrcy.com. (Nasdaq: MRCY)

About Nightwing

Nightwing is the national security solutions company defining the edge of possible to advance our nation's interests. The company delivers the most advanced full-spectrum cyber, data operations, systems integration, and intelligence services for government agencies, businesses, and organizations. Nightwing is proud to partner with our government and commercial customers to protect their most critical information, systems, and operations with breakthrough technology and world-class talent. Headquartered in Dulles, Virginia and previously part of a leading Fortune 100 company, Nightwing became independent in April 2024. Learn more at Nightwing.com.

Forward-Looking Safe Harbor Statement

This press release contains certain forward-looking statements, as that term is defined in the Private Securities Litigation Reform Act of 1995, including those relating to the Company's focus on enhanced execution of the Company's strategic plan. You can identify these statements by the words "may," "will," "could," "should," "would," "plans," "expects," "anticipates," "continue," "estimate," "project," "intend," "likely," "forecast," "probable," "potential," and similar expressions. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected or anticipated. Such risks and uncertainties include, but are not limited to, continued funding of defense programs, the timing and amounts of such funding, general economic and business conditions, including unforeseen weakness in the Company's markets, effects of any U.S. federal government shutdown or extended continuing resolution, effects of geopolitical unrest and regional conflicts, competition, changes in technology and methods of marketing, delays in or cost increases related to completing development, engineering and manufacturing programs, changes in customer order patterns, changes in product mix, continued success in technological advances and delivering technological innovations, changes in, or in the U.S. government's interpretation of, federal export control or procurement rules and regulations, including tariffs, changes in, or in the interpretation or enforcement of, environmental rules and regulations, market acceptance of the Company's products, shortages in or delays in receiving components, supply chain delays or volatility for critical components, production delays or unanticipated expenses including due to quality issues or manufacturing execution issues, adherence to required manufacturing standards, capacity underutilization, increases in scrap or inventory write-offs, failure to achieve or maintain manufacturing quality certifications, such as AS9100, failure to achieve or maintain qualified business systems, such as those required by the DFARS, the impact of supply chain disruption, inflation and labor shortages, among other things, on program execution and the resulting effect on customer satisfaction, inability to fully realize the expected benefits from acquisitions, restructurings, and operational efficiency initiatives or delays in realizing such benefits, challenges in integrating acquired businesses and achieving anticipated synergies, effects of shareholder activism, increases in interest rates, changes to industrial security and cyber-security regulations and requirements and impacts from any cyber or insider threat events, changes in tax rates or tax regulations, changes to interest rate swaps or other cash flow hedging arrangements, changes to generally accepted accounting principles, difficulties in retaining key employees and customers, litigation, including the dispute arising with the former CEO over his resignation, unanticipated costs under fixed-price service and system integration engagements, and various other factors beyond our control. These risks and uncertainties also include such additional risk factors as are discussed in the Company's filings with the U.S. Securities and Exchange Commission, including its Annual Report on Form 10-K for the fiscal year ended June 27, 2025 and subsequent Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. The Company cautions readers not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. The Company undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made.
