## **Mercury Systems Receives \$3.1 Million in Orders for High Performance Digital Signal Processing Modules**

**CHELMSFORD, Mass., Feb. 10, 2014 (GLOBE NEWSWIRE)** -- Mercury Systems, Inc. (Nasdaq:MRCY) ([mrcy.com](http://mrcy.com)), a best-of-breed provider of commercially developed, open sensor and Big Data processing systems for critical commercial, defense and intelligence applications, announced it received \$3.1 million in new orders from a leading defense prime contractor for high performance, digital signal processing modules for an unmanned airborne signals intelligence (SIGINT) application. The orders were booked and shipped in Mercury's fiscal 2014 second quarter.

"This order exemplifies the important role Mercury plays in helping primes meet the challenging demands of decreased funding and DoD acquisition reform by integrating open, standards-based technology to improve performance while protecting legacy investments," said Didier Thibaud, President of Mercury's Commercial Electronics business unit. "We are proud of our continuing partnership with our customer and ongoing work on high performance SIGINT solutions that improve U.S. intelligence capabilities in global military operations."

### **Forward-Looking Safe Harbor Statement**

This press release contains certain forward-looking statements, as that term is defined in the Private Securities Litigation Reform Act of 1995, including those relating to the products and services described herein. You can identify these statements by the use of the words "may," "will," "could," "should," "would," "plans," "expects," "anticipates," "continue," "estimate," "project," "intend," "likely," "forecast," "probable," and similar expressions. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected or anticipated. Such risks and uncertainties include, but are not limited to, continued funding of defense programs, the timing and amounts of such funding, general economic and business conditions, including unforeseen weakness in the Company's markets, effects of continued geopolitical unrest and regional conflicts, competition, changes in technology and methods of marketing, delays in completing engineering and manufacturing programs, changes in customer order patterns, changes in product mix, continued success in technological advances and delivering technological innovations, changes in the U.S. Government's interpretation of federal procurement rules and regulations, market acceptance of the Company's products, shortages in components, production delays due to performance quality issues with outsourced components, inability to fully realize the expected benefits from acquisitions and divestitures or delays in realizing such benefits, challenges in integrating acquired businesses and achieving anticipated synergies, changes to export regulations, increases in tax rates, changes to generally accepted accounting principles, difficulties in retaining key employees and customers, unanticipated costs under fixed-price service and system integration engagements, and various other factors beyond our control. These risks and uncertainties also include such additional risk factors as are discussed in the Company's filings with the U.S. Securities and Exchange Commission, including its Annual Report on Form 10-K for the fiscal year ended June 30, 2013. The Company cautions readers not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. The Company undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made.
