MERCURY SYSTEMS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands except per share data)

(Unaudited)

A. Description of Business

Mercury Systems, Inc. is a technology company that delivers commercial innovation to rapidly transform the global aerospace and defense industry. Headquartered in Andover, Massachusetts, the Company's end-to-end processing platform enables a broad range of aerospace and defense programs, optimized for mission success in some of the most challenging and demanding environments. Mercury's Processing Platform includes signal solutions, display, software applications, networking, storage and secure processing. The Company's innovative solutions are mission-ready, trusted and secure, software-defined and open and modular (the Company's differentiators), to meet customers' most-pressing high-tech needs, including those specific to the aerospace and defense community.

Investors and others should note that the Company announces material financial information using its website (<u>www.mrcy.com</u>), Securities and Exchange Commission ("SEC") filings, press releases, public conference calls, webcasts, and social media, including Twitter (<u>twitter.com/mrcy</u> and <u>twitter.com/mrcy_CEO</u>) and LinkedIn (<u>www.linkedin.com/company/mercury-systems</u>). Therefore, the Company encourages investors and others interested in Mercury to review the information the Company posts on the social media and other communication channels listed on its website.

B. Summary of Significant Accounting Policies

BASIS OF PRESENTATION

The accompanying consolidated financial statements have been prepared by the Company in accordance with Generally Accepted Accounting Principles ("GAAP") in the United States of America for interim financial information and with the instructions to the Form 10-Q and Article 10 of Regulation S-X. Certain information and footnote disclosures normally included in annual consolidated financial statements have been condensed or omitted pursuant to those rules and regulations; however, in the opinion of management the financial information reflects all adjustments, consisting of adjustments of a normal recurring nature, necessary for fair presentation. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related notes for the fiscal year ended July 1, 2022 which are contained in the Company's Annual Report on Form 10-K filed with the SEC on August 16, 2022. The results for the second quarter and six months ended December 30, 2022 are not necessarily indicative of the results to be expected for the full fiscal year.

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation.

All references to the second quarter of fiscal 2023 are to the quarter ended December 30, 2022. There were 13 weeks during the second quarters ended December 30, 2022 and December 31, 2021, respectively. There were 26 weeks during the six months ended December 30, 2022 and December 31, 2021, respectively.

USE OF ESTIMATES

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

BUSINESS COMBINATIONS

The Company utilizes the acquisition method of accounting under ASC 805, *Business Combinations*, ("ASC 805"), for all transactions and events in which it obtains control over one or more other businesses, to recognize the fair value of all assets and liabilities acquired, even if less than one hundred percent ownership is acquired, and in establishing the acquisition date fair value as the measurement date for all assets and liabilities assumed. The Company also utilizes ASC 805 for the initial recognition and measurement, subsequent measurement and accounting, and disclosure of assets and liabilities arising from contingencies in business combinations.

FOREIGN CURRENCY

Local currencies are the functional currency for the Company's subsidiaries in Switzerland, the United Kingdom, France, Spain and Canada. The accounts of foreign subsidiaries are translated using exchange rates in effect at period-end for assets and liabilities and at average exchange rates during the period for results of operations. The related translation adjustments are reported in Accumulated other comprehensive income (loss) ("AOCI") in shareholders' equity. Gains (losses) resulting from non-U.S. currency transactions are included in Other expense, net in the Consolidated Statements of Operations and Comprehensive Loss and were immaterial for all periods presented.

ACCOUNTS RECEIVABLE

Accounts receivable, net, represents amounts that have been billed and are currently due from customers. The Company maintains an allowance for credit losses to provide for the estimated amount of receivables that will not be collected. The Company provides credit to customers in the normal course of business. The Company performs ongoing credit evaluations of its customers' financial condition and limits the amount of credit extended as necessary. The allowance is based upon an assessment of the customer's credit worthiness, reasonable forecasts about the future, history with the customer, and the age of the receivable balance. The Company typically invoices a customer upon shipment of the product (or completion of a service) for contracts where revenue is recognized over time, the invoicing events are typically based on specified performance obligation deliverables or milestone events, or quantifiable measures of performance.

ACCOUNTS RECEIVABLES FACTORING

On September 27, 2022, the Company executed an uncommitted receivables purchase agreement ("RPA") with Bank of the West, as purchaser, pursuant to which the Company may offer to sell certain customer receivables, subject to the terms and conditions of the RPA. The RPA is an uncommitted arrangement such that the Company is not obligated to sell any receivables and Bank of the West has no obligation to purchase any receivables from the Company. Pursuant to the RPA, Bank of the West may purchase certain of the Company's customer receivables at a discounted rate, subject to a limit that as of any date, the total amount of purchased receivables held by Bank of the West, less the amount of all collections received on such receivables, may not exceed \$20,000. The RPA has an indefinite term and the agreement remains in effect until it is terminated by either party. Factoring under the RPA Agreement is treated as a true sale of accounts receivable by the Company. The Company has continued involvement in servicing accounts receivable under the Purchase Agreement, but no retained interests related to the factored accounts receivable.

Proceeds for amounts factored by the Company are recorded as an increase to cash and a reduction to accounts receivable outstanding in the Consolidated Balance Sheets. Cash Flows attributable to factoring are reflected as cash flows from operating activities in the Company's Consolidated Statements of Cash Flows. Factoring fees are included as selling, general and administrative expenses in the Company's Consolidated Statements of Operations and Comprehensive Loss.

The Company factored accounts receivables and incurred factoring fees of approximately \$20,000 and \$138, respectively for the second quarter and six months ended December 30, 2022. The Company did not factor any accounts receivable or incur any factoring fees for the second quarter and six months ended December 31, 2021.

DERIVATIVES

The Company records the fair value of its derivative financial instruments in its condensed consolidated financial statements in Other non-current assets, or Other non-current liabilities depending on their net position, regardless of the purpose or intent for holding the derivative contract. Changes in the fair value of the derivative financial instruments are either recognized periodically in earnings or in shareholders' equity as a component of Other comprehensive income ("OCI"). Changes in the fair value of cash flow hedges that qualify for hedge accounting treatment are recorded in OCI and reclassified into earnings in the same line item on the Consolidated Statements of Operations and Comprehensive Income as the impact of the hedged transaction when the underlying contract matures and, for interest rate exposure derivatives, over the term of the corresponding debt instrument. Changes in the fair values of derivatives not qualifying for hedge accounting are reported in earnings as they occur. All derivatives for the Company qualified for hedge accounting as of December 30, 2022.

REVENUE RECOGNITION

The Company recognizes revenue in accordance with ASC 606, *Revenue from Contracts with Customers*, ("ASC 606"). Revenues are derived from the sales of products that are grouped into one of the following three categories: (i) components; (ii) modules and sub-assemblies; and (iii) integrated subsystems. The Company also generates revenues from the performance of services, including systems engineering support, consulting, maintenance and other support, testing and installation. Each promised good or service within a contract is accounted for separately under the guidance of ASC 606 if they are distinct. Promised goods or services not meeting the criteria for being a distinct performance obligation are bundled into a single

performance obligation with other goods or services that together meet the criteria for being distinct. The appropriate allocation of the transaction price and recognition of revenue is then determined for the bundled performance obligation.

Revenue recognized at a point in time generally relates to contracts that include a combination of components, modules and sub-assemblies, integrated subsystems and related system integration or other services. Contracts with distinct performance obligations recognized at a point in time, with or without an allocation of the transaction price, totaled 44% and 40% of revenues for the second quarter and six months ended December 30, 2022, respectively. Contracts with distinct performance obligations recognized at a point in time, with or without an allocation of the transaction price, totaled 52% and 49% for the second quarter and six months ended December 31, 2021, respectively.

The Company also engages in over time contracts for development, production and service activities and recognizes revenue for performance obligations over time. These over time contracts involve the design, development, manufacture, or modification of complex modules and sub-assemblies or integrated subsystems and related services. Over time contracts include both fixed-price and cost reimbursable contracts. The Company's cost reimbursable contracts typically include cost-plus fixed fee and time and material contracts.

Total revenue recognized over time was 56% and 60% of total revenues for the second quarters and six months ended December 30, 2022, respectively. Total revenue recognized over time was 48% and 51% of total revenues for the second quarter and six months ended December 31, 2021, respectively.

The Company generally does not provide its customers with rights of product return other than those related to assurance warranty provisions that permit repair or replacement of defective goods over a period of 12 to 36 months. The Company accrues for anticipated warranty costs upon product shipment. The Company does not consider activities related to such assurance warranties, if any, to be a separate performance obligation. The Company does offer separately priced extended warranties which generally range from 12 to 36 months that are treated as separate performance obligations. The transaction price allocated to extended warranties is recognized over time in proportion to the costs expected to be incurred in satisfying the obligations under the contract.

The Company's contracts generally do not include significant financing components. The Company's over time contracts may include milestone payments, which align the payment schedule with the progress towards completion on the performance obligation. Otherwise, the Company's contracts are predicated on payment upon completion of the performance obligation. On certain contracts, the Company may be entitled to receive an advance payment, which is not considered a significant financing component because most contracts have a duration of approximately two years on average and it is used to facilitate inventory demands at the onset of a contract and to safeguard the Company from the failure of the other party to abide by some or all of their obligations under the contract.

All revenues are reported net of government assessed taxes (e.g., sales taxes or value-added taxes). Refer to Note M for disaggregation of revenue for the period.

CONTRACT BALANCES

Contract balances result from the timing of revenue recognized, billings and cash collections resulting in the generation of contract assets and liabilities. Contract assets represent revenue recognized in excess of amounts invoiced to the customer and the right to payment is not subject to the passage of time. Instead, while the Company has an enforceable right to payment as progress is made over performance obligations, billings to customers are generally predicated on (i) completion of defined milestones, (ii) monthly costs incurred or (iii) final delivery of goods or services. Contract assets are presented as Unbilled receivables and costs in excess of billings on the Company's Consolidated Balance Sheets. Contract liabilities consist of deferred product revenue, billings in excess of revenues, deferred service revenue and customer advances. Deferred product revenue represents amounts that have been invoiced to customers, but are not yet recognizable as revenue because the Company has not satisfied its performance obligations under the contract. Billings in excess of revenues represents milestone billing contracts or extended warranty contracts, which are recognized over time in proportion to the costs expected to be incurred in satisfying the obligations under the contract. Customer advances represent deposits received from customers on an order. Contract liabilities are included in deferred revenue as well as Other non-current liabilities on the Company's Consolidated Balance Sheets. Contract balances are reported in a net position on a contract-by-contract basis.

The contract asset balances were \$333,491 and \$303,356 as of December 30, 2022 and July 1, 2022, respectively. The contract asset balance increased due to growth in revenue recognized under over time contracts, as well as the timing of program milestone billings during the second quarter ended December 30, 2022. The contract liability balances were \$39,888 and \$15,966 as of December 30, 2022 and July 1, 2022, respectively. The increase was due to a higher volume of advance milestone billing events as well as timing of revenue conversion across multiple programs.

Revenue recognized for the second quarter and six months ended December 30, 2022 that was included in the contract liability balance at July 1, 2022 was \$3,068 and \$7,737, respectively. Revenue recognized for the second quarter and six months ended December 31, 2021 that was included in the contract liability balance at July 2, 2021 was \$5,151 and \$18,288, respectively.

REMAINING PERFORMANCE OBLIGATIONS

The Company includes in its computation of remaining performance obligations customer orders for which it has accepted signed sales orders. The definition of remaining performance obligations excludes contracts with original expected durations of less than one year, as well as those contracts that provide the customer with the right to cancel or terminate the order with no substantial penalty, even if the Company's historical experience indicates the likelihood of cancellation or termination is remote. As of December 30, 2022, the aggregate amount of the transaction price allocated to remaining performance obligations was \$580,318. The Company expects to recognize approximately 64% of its remaining performance obligations as revenue in the next 12 months and the balance thereafter.

LONG-LIVED ASSETS

Long-lived assets primarily include property and equipment, intangible assets and ROU assets. The Company regularly evaluates its long-lived assets for events and circumstances that indicate a potential impairment in accordance with ASC 360, *Property, Plant and Equipment* ("ASC 360"). The Company reviews long-lived assets for impairment whenever events or changes in business circumstances indicate that the carrying amount of the assets may not be fully recoverable or that the useful lives of these assets are no longer appropriate. Each impairment test is based on a comparison of the estimated undiscounted cash flows of the asset as compared to the recorded value of the asset. If impairment is indicated, the asset is written down to its estimated fair value. As part of the Company's assessment over the future benefit of certain long-lived assets in the second quarter ended December 30, 2022, the Company identified an immaterial correction of an error in the useful lives assigned to certain leasehold improvements resulting in a cumulative adjustment to depreciation expense of \$3.1 million recorded during the second quarter and six months ended December 30, 2022.

WEIGHTED-AVERAGE SHARES

Weighted-average shares were calculated as follows:

| | Second Qua | rters Ended | Six Months Ended | | | |
|---|-------------------|-------------------|-------------------|-------------------|--|--|
| | December 30, 2022 | December 31, 2021 | December 30, 2022 | December 31, 2021 | | |
| Basic weighted-average shares outstanding | 56,252 | 55,520 | 56,126 | 55,448 | | |
| Effect of dilutive equity instruments | — | — | — | — | | |
| Diluted weighted-average shares outstanding | 56,252 | 55,520 | 56,126 | 55,448 | | |

Equity instruments to purchase 511 and 300 shares of common stock were not included in the calculation of diluted net earnings per share for the second quarter and six months ended December 30, 2022, respectively, because the equity instruments were anti-dilutive. Equity instruments to purchase 408 and 434 shares of common stock were not included in the calculation of diluted net earnings per share for the second quarter and six months ended December 31, 2021, respectively, because the equity instruments were anti-dilutive.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In October 2021, the FASB issued ASU No. 2021-08, *Business Combinations (Topic 805): Accounting for Contract Assets and Contract Liabilities from Contracts with Customers*, an amendment of the FASB Accounting Standards Codification. The amendments in this ASU address diversity and inconsistency related to the recognition and measurement of contract assets and contract liabilities acquired in a business combination and require that an acquirer recognize and measure contract assets and contract liabilities acquired in a business combination, including contract swith Customers. Under current U.S. GAAP, an acquirer generally recognizes assets and liabilities assumed in a business combination, including contract assets and liabilities arising from revenue contracts with customers, at fair value on the acquisition date. ASU No. 2021-08 will result in the acquirer recording acquired contract assets and liabilities on the same basis that would have been recorded by the acquiree before the acquisition under Topic 606. This ASU is effective for fiscal years beginning after December 15, 2022, with early adoption permitted, including adoption in an interim period. The Company is currently evaluating the effect that this standard will have on its consolidated financial statements and related disclosures.

RECENTLY ADOPTED ACCOUNTING PRONOUNCEMENTS

Effective July 2, 2022, the Company adopted ASU No. 2020-04, *Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting,* an amendment of the FASB Accounting Standards Codification. The amendments in this ASU provide optional guidance for a limited period of time to ease the potential burden in accounting for (or recognizing the effects of) reference rate reform on financial reporting. The amendments in this ASU are elective and apply to all entities, subject to meeting certain criteria, that have contracts, hedging relationships, and other transactions that reference LIBOR or another reference rate expected to be discontinued because of reference rate reform. This adoption did not have a material impact to the Company's consolidated financial statements or related disclosures.

Effective July 2, 2022, the Company adopted ASU No. 2020-06, *Debt - Debt with conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging - Contracts in Entity's Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity's Own Equity, an amendment of the FASB Accounting Standards Codification. The amendments in this ASU simplify the accounting for convertible debt securities. This adoption did not have a material impact to the Company's consolidated financial statements or related disclosures.*

Effective December 1, 2022, the Company adopted ASU No. 2022-06, *Reference Rate Reform (Topic 848): Deferral of the Sunset Date of Topic 848*, an amendment of the FASB Accounting Standards Codification. The amendments in this ASU extend the sunset date under Topic 848 from December 31, 2022 to December 31, 2024 to align the temporary accounting relief guidance with the expected LIBOR cessation date of June 30, 2023. This adoption did not have a material impact to the Company's consolidated financial statements or related disclosures.

C. Acquisitions

ATLANTA MICRO ACQUISITION

On November 29, 2021, the Company acquired Atlanta Micro, Inc. ("Atlanta Micro") for a purchase price of \$90,000, prior to net working capital and net debt adjustments. Based in Norcross, Georgia, Atlanta Micro is a leading designer and manufacturer of high-performance RF modules and components, including advanced monolithic microwave integrated circuits ("MMICs") which are critical for high-speed data acquisition applications including electronic warfare, radar and weapons. The Company funded the acquisition through the Company's existing revolving credit facility (the "Revolver"). On March 28, 2022, the Company and former owners of Atlanta Micro agreed to post closing adjustments totaling \$58, which increased the Company's net purchase price.

The following table presents the net purchase price and the fair values of the assets and liabilities of Atlanta Micro:

| | Amounts |
|--|--------------|
| Consideration transferred | |
| Cash paid at closing | \$ 91,438 |
| Working capital and net debt adjustment | (416) |
| Less cash acquired | (1,782) |
| Net purchase price | \$ 89,240 |
| | |
| Fair value of tangible assets acquired and liabilities assumed | |
| Cash | \$ 1,782 |
| Accounts receivable | 1,568 |
| Inventory | 4,475 |
| Fixed assets | 434 |
| Other current and non-current assets | 2,079 |
| Accounts payable | (529) |
| Accrued expenses | (845) |
| Other current and non-current liabilities | (11,174) |
| Fair value of net tangible assets acquired | (2,210) |
| Fair value of identifiable intangible assets | 34,980 |
| Goodwill | 58,252 |
| Fair value of net assets acquired | 91,022 |
| Less cash acquired | (1,782) |
| Net purchase price | \$ 89,240 |

On November 29, 2022, the measurement period for Atlanta Micro expired. The identifiable intangible assets include customer relationships of \$27,310 with a useful life of 20 years, completed technology of \$7,260 with a useful life of 8 years and backlog of \$410 with a useful life of two years.

The goodwill of \$58,252 largely reflects the potential synergies and expansion of the Company's offerings across product lines and markets complementary to the Company's existing products and markets and is not deductible for tax purposes. The goodwill from this acquisition is reported in the Microelectronics reporting unit.

AVALEX ACQUISITION

On September 27, 2021, the Company signed a definitive agreement to acquire Avalex Technologies, LLC. ("Avalex") for a purchase price of \$155,000, prior to net working capital and net debt adjustments. On November 5, 2021, the transaction closed and the Company acquired Avalex. Based in Gulf Breeze, Florida, Avalex is a provider of mission-critical avionics, including rugged displays, integrated communications management systems, digital video recorders and warning systems. The Company funded the acquisition with the Revolver. On March 17, 2022, the Company and former owner of Avalex agreed to post closing adjustments totaling \$151, which increased the Company's net purchase price.

The following table presents the net purchase price and the fair values of the assets and liabilities of Avalex:

| | | Amounts |
|--|----|---------|
| Consideration transferred | | |
| Cash paid at closing | \$ | 157,367 |
| Working capital and net debt adjustment | | (1,034) |
| Less cash acquired | | (2,188) |
| Net purchase price | \$ | 154,145 |
| Fair value of tangible assets acquired and liabilities assumed | | |
| Cash | \$ | 2,188 |
| Accounts receivable | Ŷ | 5,363 |
| Inventory | | 7,141 |
| Fixed assets | | 1,245 |
| Other current and non-current assets | | 5,228 |
| Accounts payable | | (1,755) |
| Accrued expenses | | (1,421) |
| Other current and non-current liabilities | | (4,788) |
| Fair value of net tangible assets acquired | | 13,201 |
| Fair value of identifiable intangible assets | | 61,360 |
| Goodwill | | 81,772 |
| Fair value of net assets acquired | | 156,333 |
| Less cash acquired | | (2,188) |
| Net purchase price | \$ | 154,145 |

On November 5, 2022, the measurement period for Avalex expired. The identifiable intangible assets include customer relationships of \$41,880 with a useful life of 9 years, completed technology of \$14,430 with a useful life of 7 years and backlog of \$5,050 with a useful life of one year.

The goodwill of \$81,772 largely reflects the potential synergies and expansion of the Company's offerings across product lines and markets complementary to the Company's existing products and markets. The goodwill from this acquisition is reported in the Mission Systems reporting unit, formerly referred to as the Processing reporting unit. The Company is amortizing the amount over 15 years for tax purposes. As of December 30, 2022, the Company had \$77,459 of goodwill deductible for tax purposes.

D. Fair Value of Financial Instruments

| | Fair Value Measurements | | | | | | | | | |
|--------------------|-------------------------|----------|----|---------|----|---------|----|---------|--|--|
| | December 3 | 30, 2022 | | Level 1 | | Level 2 | | Level 3 | | |
| Liabilities: | | | | | | | | | | |
| Interest rate swap | \$ | 220 | \$ | — | \$ | 220 | \$ | — | | |
| Total | \$ | 220 | \$ | | \$ | 220 | \$ | | | |

The carrying values of cash and cash equivalents, including money market funds, restricted cash, accounts receivable and payable, contract assets and liabilities and accrued liabilities approximate fair value due to the short-term maturities of these assets and liabilities. The Company determined the carrying value of long-term debt approximated fair value due to variable interest rates charged on the borrowings, which reprice frequently. During the first quarter ended September 30, 2022, the Company entered into an interest rate hedging agreement (the "Swap"). Refer to Note O for further information regarding the Swap. The fair value of the Swap is estimated using a discounted cash flow analysis based on the contractual terms of the derivative, leveraging observable inputs other than quoted prices, such as interest rates. As of December 30, 2022, the fair value of the Swap was a liability of \$220 and is included within Other non-current liabilities in the Company's Consolidated Balance Sheets.

E. Inventory

Inventory is stated at the lower of cost (first-in, first-out) or net realizable value, and consists of materials, labor and overhead. On a quarterly basis, the Company uses consistent methodologies to evaluate inventory for net realizable value. Once an item is written down, the value becomes the new inventory cost basis. The Company reduces the value of inventory for excess and obsolete inventory, consisting of on-hand inventory in excess of estimated usage. The excess and obsolete inventory evaluation is based upon assumptions about future demand, historical usage, product mix and possible alternative uses. Inventory was comprised of the following:

| | | As of December 30, 2022 July 1, 2022 | | | | |
|-----------------|-------|---|----|--------------|--|--|
| | Decer | nber 30, 2022 | | July 1, 2022 | | |
| Raw materials | \$ | 199,710 | \$ | 178,410 | | |
| Work in process | | 76,830 | | 64,287 | | |
| Finished goods | | 35,436 | | 27,642 | | |
| Total | \$ | 311,976 | \$ | 270,339 | | |

F. Goodwill

In accordance with FASB ASC 350, *Intangibles-Goodwill and Other* ("ASC 350"), the Company determines its reporting units based upon whether discrete financial information is available, if management regularly reviews the operating results of the component, the nature of the products offered to customers and the market characteristics of each reporting unit. A reporting unit is considered to be an operating segment or one level below an operating segment also known as a component. Component level financial information is reviewed by management across two divisions: Mission Systems and Microelectronics. Accordingly, these were determined to be the Company's reporting units.

The following table sets forth the changes in the carrying amount of goodwill for the six months ended December 30, 2022:

| | Total |
|---|---------------|
| Balance at July 1, 2022 | \$ 937,880 |
| Goodwill adjustment for the Avalex acquisition | 66 |
| Goodwill adjustment for the Atlanta Micro acquisition | 147 |
| Balance at December 30, 2022 | \$ 938,093 |

The Company performs its annual goodwill impairment test in the fourth quarter of each fiscal year.

G. Restructuring

During the second quarter ended and six months ended December 30, 2022, the Company incurred \$2,069 and \$3,577 of restructuring and other charges, respectively. The Company incurs restructuring and other charges in connection with management's decision to undertake certain actions to realign operating expenses through workforce reductions and the closure of certain Company facilities, businesses and product lines. The Company's adjustments reflected in restructuring and other charges are typically related to acquisitions and organizational redesign programs initiated as part of discrete post acquisition integration activities.

Consistent with the Company's definition of restructuring and other charges, 1MPACT is an organizational redesign program initiated on the heels of a series of acquisitions since 2014 rather than a single, discrete acquisition. Since the inception of 1MPACT, the Company has selectively engaged with leading consultants to accelerate solution design and implementation for the highest value workstreams. These costs are associated with this discrete transformation initiative and are non-routine and may not be indicative of ongoing results.

Restructuring and other charges for the second quarter ended December 30, 2022 primarily related to 1MPACT including \$1,039 of costs for facility optimization efforts, including \$783 related to lease asset impairment, \$595 of severance costs, as well as \$435 of third-party consulting costs.

Restructuring and other charges for the six months ended December 30, 2022 primarily related to 1MPACT including \$1,739 of third-party consulting costs, \$1,039 of costs for facility optimization efforts, including \$783 related to lease asset impairment, as well as \$799 of severance costs.

All of the restructuring and other charges are classified as Operating expenses in the Consolidated Statements of Operations and Comprehensive Loss and any remaining severance obligations are expected to be paid within the next twelve months. The restructuring liability is classified as Accrued expenses in the Consolidated Balance Sheets.

The following table presents the detail of charges included in the Company's liability for restructuring and other charges:

| | Sever | ance & Related | | acilities & Other | | Total |
|------------------------------|-------|----------------|----|----------------------|----|---------|
| Balance at July 1, 2022 | \$ | 4,722 | \$ | _ | \$ | 4,722 |
| Restructuring charges | | 799 | | 256 | | 1,055 |
| Cash paid | | (4,336) | | (194) | | (4,530) |
| Balance at December 30, 2022 | \$ | 1,185 | \$ | 62 | \$ | 1,247 |
| | | | - | | - | |

H. Income Taxes

The Company recorded an income tax benefit of \$2,151 and \$155 on a loss before income taxes of \$13,071 and \$2,794 for the second quarters ended December 30, 2022 and December 31, 2021, respectively. The Company recorded an income tax benefit of \$3,173 and \$596 on a loss before income taxes of \$28,428 and \$10,375 for the six months ended December 30, 2022 and December 31, 2021, respectively.

During the second quarter ended December 30, 2022, the Company recognized a tax benefit of \$2,348 related to a release of income tax reserves for unrecognized income tax benefits due to the expiration of the statute of limitations. During the six months ended December 30, 2022 and December 31, 2021, the Company recognized a tax provision of \$1,745 and \$878 related to stock compensation shortfalls, respectively.

The effective tax rate for the second quarters ended December 30, 2022 and December 31, 2021 differed from the federal statutory rate primarily due to federal and state research and development credits, non-deductible compensation, stock compensation shortfalls and state taxes. The effective tax rate for the second quarter ended December 30, 2022 also differed from the federal statutory rate due to the release of income tax reserves for previously unrecognized income tax benefits.

On August 16, 2022, President Biden signed the Inflation Reduction Act of 2022 into law which contained provisions that include a 15% corporate minimum tax effective for taxable years beginning after December 31, 2022 and a 1% excise tax on certain stock buybacks after December 31, 2022. The Company expects the impact of this legislation to be immaterial.

Effective for tax years beginning after December 31, 2021, the Tax Cuts and Jobs Act of 2017 requires companies to capitalize and amortize domestic research and development expenditures over five years for tax purposes, and foreign research and development expenditures over fifteen years for tax purposes.

I. Debt

REVOLVING CREDIT FACILITY

On February 28, 2022, the Company amended the Revolver to increase and extend the borrowing capacity to a \$1,100,000, 5-year revolving credit line, with the maturity extended to February 28, 2027. As of December 30, 2022, the Company's outstanding balance of unamortized deferred financing costs was \$3,994, which is being amortized to Other expense, net in the Consolidated Statements of Operations and Comprehensive Loss on a straight line basis over the term of the Revolver.

During the second quarter ended December 30, 2022, the Company borrowed \$40,000 against the Revolver, which was subsequently repaid within the quarter. As of December 30, 2022, the Company was in compliance with all covenants and conditions under the Revolver and there were outstanding borrowings of \$511,500 against the Revolver, resulting in interest expense of \$6,590 and \$11,137 for the second quarter and six months ended December 30, 2022. There were outstanding letters of credit of \$963 as of December 30, 2022.

J. Employee Benefit Plan

PENSION PLAN

The Company maintains a defined benefit pension plan (the "Plan") for its Swiss employees, which is administered by an independent pension fund. The Plan is mandated by Swiss law and meets the criteria for a defined benefit plan under ASC 715, *Compensation—Retirement Benefits* ("ASC 715"), because participants of the Plan are entitled to a defined rate of return on contributions made. The independent pension fund is a multi-employer plan with unrestricted joint liability for all participating companies for which the Plan's overfunding or underfunding is allocated to each participating company based on an allocation key determined by the Plan.

The Company recognizes a net asset or liability for the Plan equal to the difference between the projected benefit obligation of the Plan and the fair value of the Plan's assets as required by ASC 715. The funded status may vary from year to year due to changes in the fair value of the Plan's assets and variations on the underlying assumptions of the projected benefit obligation of the Plan. The Plan's funded status at December 30, 2022 was a net liability of \$4,647, which is recorded in Other non-current liabilities on the Consolidated Balance Sheet. The Company recorded a net gain of \$48 and \$96 in AOCI during the second quarter and six months ended December 30, 2022. The Company recorded a net gain of \$48 and \$96 in AOCL during the second quarter and six months December 31, 2021. The Company recognized net periodic benefit costs of \$220 and \$441 associated with the Plan for the second quarter and six months ended December 30, 2022, respectively. The Company recognized net periodic benefit costs of \$269 and \$538 associated with the Plan for the second quarter and six months ended December 31, 2021, respectively. The Company's total expected employer contributions to the Plan during fiscal 2023 are \$1,093.

401(k) Plan

The Company maintains a qualified 401(k) plan (the "401(k) Plan") for its U.S. employees. Effective in the first quarter of fiscal 2023, the Company increased the rate of its matching contributions from 3% to 6% of participants' eligible annual compensation and changed the form of these contributions from cash to Company stock. The Company may also make optional contributions to the plan for any plan year at its discretion. The Company had \$965 of capitalized stock-based 401(k) matching compensation expense on the Consolidated Balance Sheet at December 30, 2022. Stock-based 401(k) matching compensation cost is measured based on the value of the matching amount and is recognized as expense as incurred. During the second quarter ended December 30, 2022, the Company recognized share-based matching contributions related to the 401(k) plan of \$2,748 as compared to \$1,711 of cash match during the second quarter ended December 31, 2021. During the six months ended December 30, 2022, the Company recognized share-based matching contributions related to the 401(k) plan of \$6,427 as compared to \$3,822 of cash match during the six months ended December 31, 2021.

K. Shareholders' Equity

STOCKHOLDER RIGHTS PLAN

On December 27, 2021, the Company's Board of Directors authorized and declared a dividend of one preferred share purchase right (a "Right"), payable on January 10, 2022, for each outstanding share of common stock par value \$0.01 per share to the stockholders of record on that date. Each Right entitles the registered holder to purchase from the Company a unit of Series A Junior Preferred Stock, par value \$0.01 per share, of the Company at a designated price per unit, subject to adjustment. The Rights will initially trade with, and will be inseparable from, the shares of common stock.

On June 24, 2022, the Company amended the Rights Agreement, dated as of December 27, 2021, to increase the ownership threshold for a person to be an "Acquiring Person" (as defined in the Rights Agreement) from 7.5% of common stock to 10% of common stock (10% of common stock to 20% of common stock in the case of a passive institutional investor).

Additional details about the Rights Agreement are contained in the Current Reports on Form 8-K filed by the Company with the SEC on December 29, 2021 and June 24, 2022.

On October 26, 2022 the Stockholder Rights Plan expired.

L. Stock-Based Compensation

STOCK INCENTIVE PLANS

At December 30, 2022, the aggregate number of shares authorized for issuance under the Company's Amended and Restated 2018 Stock Incentive Plan (the "2018 Plan") is 7,862 shares, including 3,000 shares approved by the Company's shareholders on October 28, 2020 and 2,000 shares approved for future grant under the 2018 Plan by the Company's shareholders on October 26, 2022. The 2018 Plan shares available for issuance also include 948 shares rolled into the 2018 Plan that were available for future grant under the Company's 2005 Stock Incentive Plan, as amended and restated (the "2005 Plan"). The 2018 Plan replaced the 2005 Plan. The shares authorized for issuance under the 2018 Plan will continue to be increased by any future cancellations, forfeitures or terminations (other than by exercise) of awards under the 2005 Plan. The foregoing does not affect any outstanding awards under the 2005 Plan, which remain in full force and effect in accordance with their terms. The 2018 Plan provides for the grant of non-qualified and incentive stock options, restricted stock, stock appreciation rights and deferred stock awards to employees and non-employees. Stock options must be granted with an exercise price of not less than 100% of the fair value of the Company's common stock on the date of grant and the options generally have a term of seven years. There were 2,054 available shares for future grant under the 2018 Plan at December 30, 2022.

As part of the Company's ongoing annual equity grant program for employees, the Company grants performance-based restricted stock awards to certain executives and employees pursuant to the 2018 Plan. Performance awards vest based on the requisite service period subject to the achievement of specific financial performance targets. Based on the performance targets, some of these awards require graded vesting which results in more rapid expense recognition compared to traditional time-based vesting over the same vesting period. The Company monitors the probability of achieving the performance targets on a quarterly basis and may adjust periodic stock compensation expense accordingly based on its determination of the likelihood for reaching targets. The performance targets generally include the achievement of internal performance targets in relation to a peer group of companies.

EMPLOYEE STOCK PURCHASE PLAN

At December 30, 2022, the aggregate number of shares authorized for issuance under the Company's 1997 Employee Stock Purchase Plan, as amended and restated ("ESPP"), is 2,300 shares, including 500 shares approved by the Company's shareholders on October 28, 2020. Under the ESPP, rights are granted to purchase shares of common stock at 85% of the lesser of the market value of such shares at either the beginning or the end of each six-month offering period. The ESPP permits employees to purchase common stock through payroll deductions, which may not exceed 10% of an employee's compensation as defined in the ESPP. There were 57 and 54 shares issued under the ESPP during the six months quarters ended December 30, 2022 and December 31, 2021, respectively. Shares available for future purchase under the ESPP totaled 256 at December 30, 2022.

STOCK AWARD ACTIVITY

The following table summarizes the status of the Company's non-vested restricted stock awards and deferred stock awards since July 1, 2022:

| | Non-vested Restr | icted Stock Awards |
|----------------------------------|---------------------|--------------------|
| | Number of Shares | |
| Outstanding at July 1, 2022 | 2,305 | \$ 57.47 |
| Granted | 213 | 55.69 |
| Vested | (477) | 64.57 |
| Forfeited | (94) | 57.68 |
| Outstanding at December 30, 2022 | 1,947 | \$ 55.52 |

STOCK-BASED COMPENSATION EXPENSE

The Company recognizes expense for its share-based payment plans in the Consolidated Statements of Operations and Comprehensive Loss in accordance with ASC 718, *Compensation - Stock Compensation* ("ASC 718"). The Company had \$1,710 and \$1,229 of capitalized stock-based compensation expense on the Consolidated Balance Sheets for the periods ended December 30, 2022 and July 1, 2022, respectively. Under the fair value recognition provisions of ASC 718, stock-based compensation cost is measured at the grant date based on the value of the award and is recognized as expense over the service period, net of estimated forfeitures.

The following table presents share-based compensation expenses included in the Company's Consolidated Statements of Operations and Comprehensive Loss:

| | Second Quar | ters l | Ended | | Six Mont | ths Ended | | |
|---|-----------------------|--------|-------------------|-------------------|----------|-----------|-------------------|--|
| | December 30, 2022 | | December 31, 2021 | December 30, 2022 | | | December 31, 2021 | |
| Cost of revenues | \$ 237 | \$ | 322 | \$ | 1,036 | \$ | 881 | |
| Selling, general and administrative | 8,277 | | 6,032 | | 13,155 | | 13,593 | |
| Research and development | 1,744 | | 1,494 | | 3,316 | | 2,901 | |
| Stock-based compensation expense before tax | 10,258 | | 7,848 | | 17,507 | | 17,375 | |
| Income taxes | (2,770) | | (2,040) | | (4,727) | | (4,691) | |
| Stock-based compensation expense, net of income taxes | \$ 7,488 | \$ | 5,808 | \$ | 12,780 | \$ | 12,684 | |

M. Operating Segment, Geographic Information and Significant Customers

Operating segments are defined as components of an enterprise evaluated regularly by the Company's chief operating decision maker ("CODM") in deciding how to allocate resources and assess performance. During the first quarter of fiscal 2022, the Company announced its 1MPACT value creation initiative to promote scale as the organization continues to grow. The Company evaluated this internal reorganization under FASB ASC 280, *Segment Reporting* ("ASC 280") to determine whether this change has impacted the Company's single operating and reportable segment. The Company concluded this change had no effect given the CODM continues to evaluate and manage the Company on the basis of one operating and reportable segment. The Company utilized the management approach for determining its operating segment in accordance with ASC 280.

The geographic distribution of the Company's revenues as determined by country in which the Company's legal subsidiary is domiciled is summarized as follows:

| U.S. | Europe | | Asia Pacific | | Eliminations | | | Total |
|--|--|---|--|--|--|---|--|---|
| | | | | | | | | |
| \$ 219,155 | \$ | 10,431 | \$ | 2 | \$ | | \$ | 229,588 |
| (68) | | 168 | | | | (100) | | — |
| \$ 219,087 | \$ | 10,599 | \$ | 2 | \$ | (100) | \$ | 229,588 |
| | | | | | | | | |
| \$ 209,495 | \$ | 10,808 | \$ | 77 | \$ | | \$ | 220,380 |
| 1,588 | | 599 | | — | | (2,187) | | |
| \$ 211,083 | \$ | 11,407 | \$ | 77 | \$ | (2,187) | \$ | 220,380 |
| | | | | | | | | |
| \$ 437,977 | \$ | 19,183 | \$ | 7 | \$ | | \$ | 457,167 |
| 79 | | 372 | | | | (451) | | |
| \$ 438,056 | \$ | 19,555 | \$ | 7 | \$ | (451) | \$ | 457,167 |
| | | | _ | | | | | |
| \$ 423,236 | \$ | 21,995 | \$ | 162 | \$ | | \$ | 445,393 |
| 3,147 | | 1,328 | | — | | (4,475) | | — |
| \$ 426,383 | \$ | 23,323 | \$ | 162 | \$ | (4,475) | \$ | 445,393 |
| \$ \$ \$ \$ \$ \$ \$ \$ | \$ 219,155 (68) \$ 219,087 \$ 209,495 1,588 \$ 211,083 \$ 437,977 79 \$ 438,056 \$ 423,236 3,147 | $\begin{array}{c ccccccccccccccccccccccccccccccccccc$ | $\begin{array}{c cccccc} & & & & & & & & & & & & & & & & $ | $\begin{array}{c c c c c c c c c c c c c c c c c c c $ | $\begin{array}{c c c c c c c c c c c c c c c c c c c $ | $\begin{array}{c ccccccccccccccccccccccccccccccccccc$ | $\begin{array}{c c c c c c c c c c c c c c c c c c c $ | $\begin{array}{c ccccccccccccccccccccccccccccccccccc$ |

The Company offers a broad family of products and processing solutions designed to meet the full range of requirements in compute-intensive, signal processing, image processing and command and control applications. To maintain a competitive advantage, the Company seeks to leverage technology investments across multiple product lines and product solutions.

The Company's products are typically compute-intensive and require extremely high bandwidth and high throughput. These processing solutions often must also meet significant SWaP constraints for use in aircraft, unmanned aerial vehicles, ships and other platforms and be ruggedized for use in harsh environments. The Company's products transform the massive streams of digital data created in these applications into usable information in real time. The systems can scale from a few processors to thousands of processors.

In recent years, the Company completed a series of acquisitions that augmented its technological capabilities, applications and end markets. As these acquisitions and changes occurred, the Company's proportion of revenue derived from the sale of components in different technological areas, and modules, subassemblies and integrated subsystems which combine technologies into more complex diverse products has shifted. The following tables present revenue consistent with the Company's strategy of expanding its technological capabilities and program content. As additional information related to the Company's products by end user, application, product grouping and/or platform is attained, the categorization of these products can vary over time. When this occurs, the Company reclassifies revenue by end user, application, product grouping and/or platform for prior periods. Such reclassifications typically do not materially change the underlying trends of results within each revenue category.

The following table presents the Company's net revenue by end user for the periods presented:

| | | Second Qua | arters | Ended | | Six Months Ended | | | | | |
|---|----|-----------------|--------|-------------------|-------------------|------------------|----|-------------------|--|--|--|
| | De | cember 30, 2022 | | December 31, 2021 | December 30, 2022 | | | December 31, 2021 | | | |
| Domestic ⁽¹⁾ | \$ | 204,959 | \$ | 186,592 | \$ | 410,789 | \$ | 375,840 | | | |
| International/Foreign Military Sales ⁽²⁾ | | 24,629 | | 33,788 | | 46,378 | | 69,553 | | | |
| Total Net Revenue | \$ | 229,588 | \$ | 220,380 | \$ | 457,167 | \$ | 445,393 | | | |

(1) Domestic revenues consist of sales where the end user is within the U.S., as well as sales to prime defense contractor customers where the ultimate end user location is not defined.
(2) International/Foreign Military Sales consist of sales to U.S. prime defense contractor customers where the end user is outside the U.S., foreign military sales through the U.S. government and direct sales to non-U.S. based customers intended for end use outside of the U.S.

The following table presents the Company's net revenue by end application for the periods presented:

| | Second Qu | arters Ended | Six Months Ended | | | | | |
|--|-------------------|-------------------|-------------------|-------------------|--|--|--|--|
| | December 30, 2022 | December 31, 2021 | December 30, 2022 | December 31, 2021 | | | | |
| Radar ⁽¹⁾ | \$ 43,707 | \$ 51,172 | \$ 97,115 | \$ 110,076 | | | | |
| Electronic Warfare ⁽²⁾ | 33,718 | 32,369 | 68,807 | 66,310 | | | | |
| Other Sensor & Effector ⁽³⁾ | 29,333 | 22,164 | 50,536 | 53,606 | | | | |
| Total Sensor & Effector | 106,758 | 105,705 | 216,458 | 229,992 | | | | |
| C4I ⁽⁴⁾ | 103,735 | 90,931 | 198,866 | 174,332 | | | | |
| Other ⁽⁵⁾ | 19,095 | 23,744 | 41,843 | 41,069 | | | | |
| Total Net Revenue | \$ 229,588 | \$ 220,380 | \$ 457,167 | \$ 445,393 | | | | |

(1) Radar includes end-use applications where radio frequency signals are utilized to detect, track and identify objects.

(2) Electronic Warfare includes end-use applications comprising the offensive and defensive use of the electromagnetic spectrum.

(3) Other Sensor and Effector products include all Sensor and Effector end markets other than Radar and Electronic Warfare.

(4) C4I includes rugged secure rackmount servers that are designed to drive the most powerful military processing applications. (5) Other products include all component and other sales where the end use is not specified.

The following table presents the Company's net revenue by product grouping for the periods presented:

| | | Second Qu | arters | Ended | | Six Months Ended | | | | |
|---|----|-----------------|--------|-------------------|-------------------|------------------|----|-------------------|--|--|
| | De | cember 30, 2022 | | December 31, 2021 | December 30, 2022 | | | December 31, 2021 | | |
| Components ⁽¹⁾ | \$ | 45,158 | \$ | 31,472 | \$ | 77,076 | \$ | 66,537 | | |
| Modules and Sub-assemblies ⁽²⁾ | | 62,312 | | 46,723 | | 118,114 | | 81,622 | | |
| Integrated Subsystems ⁽³⁾ | | 122,118 | | 142,185 | | 261,977 | | 297,234 | | |
| Total Net Revenue | \$ | 229,588 | \$ | 220,380 | \$ | 457,167 | \$ | 445,393 | | |

(1) Components represent the basic building blocks of an electronic system. They generally perform a single function such as switching, storing or converting electronic signals. Some examples include power amplifiers and limiters, switches, oscillators, filters, equalizers, digital and analog converters, chips, MMICs (monolithic microwave integrated circuits) and memory and storage devices. (2) Modules and sub-assemblies combine multiple components to serve a range of complex functions, including processing, networking and graphics display. Typically delivered as computer boards or other packaging, modules and sub-assemblies are usually designed using open standards to provide interoperability when integrated in a subsystem. Examples of modules and sub-assemblies include embedded processing boards, switched fabrics and boards for high-speed input/output, digital receivers, graphics and video, along with multi-chip modules, integrated radio frequency and microwave multi-function assemblies and radio frequency tuners and transceivers.

(3) Integrated subsystems bring components, modules and/or sub-assemblies into one system, enabled with software. Subsystems are typically, but not always, integrated within an open standards-based chassis and often feature interconnect technologies to enable communication between disparate systems. Spares and replacement modules and sub-assemblies are provided for use with subsystems sold by the Company. The Company's subsystems are deployed in sensor processing, aviation and mission computing and C4I applications.

The following table presents the Company's net revenue by platform for the periods presented:

| | Second Qua | arters | Ended | | Six Months Ended | | | | | |
|-------------------------|-----------------------|--------|-------------------|----|-------------------|----|-------------------|--|--|--|
| | December 30, 2022 | | December 31, 2021 | | December 30, 2022 | | December 31, 2021 | | | |
| Airborne ⁽¹⁾ | \$ 119,944 | \$ | 110,990 | \$ | 238,294 | \$ | 227,554 | | | |
| Land ⁽²⁾ | 26,735 | | 25,976 | | 60,667 | | 61,833 | | | |
| Naval ⁽³⁾ | 31,204 | | 34,236 | | 64,939 | | 74,213 | | | |
| Other ⁽⁴⁾ | 51,705 | | 49,178 | | 93,267 | | 81,793 | | | |
| Total Net Revenues | \$ 229,588 | \$ | 220,380 | \$ | 457,167 | \$ | 445,393 | | | |

(1) Airborne platform includes products that relate to personnel, equipment or pieces of equipment designed for airborne applications.

(2) Land platform includes products that relate to fixed or mobile equipment, or pieces of equipment for personnel, weapon systems, vehicles and support elements operating on land.

(3) Naval platform includes products that relate to personnel, equipment or pieces of equipment designed for naval operations. (4) All platforms other than Airborne, Land or Naval.

The geographic distribution of the Company's identifiable long-lived assets is summarized as follows:

| | U.S. | Europe | Asia Pacific | Eliminations | Total |
|-------------------|---------------|-------------|--------------|--------------|---------------|
| December 30, 2022 | \$ 118,299 | \$ 3,690 | \$ _ | \$ _ | \$ 121,989 |
| July 1, 2022 | \$ 122,712 | \$ 4,476 | \$ 3 | \$ — | \$ 127,191 |

Identifiable long-lived assets exclude right-of-use assets, goodwill, and intangible assets.

Customers comprising 10% or more of the Company's revenues for the periods shown are as follows:

| | Second Quart | ters Ended | Six Month | s Ended | | |
|-----------------------------|-------------------|-------------------|-------------------|-------------------|--|--|
| | December 30, 2022 | December 31, 2021 | December 30, 2022 | December 31, 2021 | | |
| Lockheed Martin Corporation | 12 % | * | 14 % | 10 % | | |
| Raytheon Technologies | 12 % | 15 % | 12 % | 15 % | | |
| U.S. Navy | 11 % | 14 % | 11 % | 15 % | | |
| Northrop Grumman | 11 % | 10 % | 10 % | * | | |
| | 46 % | 39 % | 47 % | 40 % | | |

* Indicates that the amount is less than 10% of the Company's revenue for the respective period.

While the Company typically has customers from which it derives 10% or more of its revenue, the sales to each of these customers are spread across multiple programs and platforms. There were no programs comprising 10% or more of the Company's revenues for the second quarters and six months ended December 30, 2022 and December 31, 2021.

N. Commitments and Contingencies

LEGAL CLAIMS

The Company is subject to litigation, claims, investigations and audits arising from time to time in the ordinary course of business. Although legal proceedings are inherently unpredictable, the Company believes that it has valid defenses with respect to any matters currently pending against the Company and intends to defend itself vigorously. The outcome of these matters, individually and in the aggregate, is not expected to have a material impact on the Company's cash flows, results of operations, or financial position.

In June 2021, Embedded Reps of America, LLC ("ERA"), a former sales representative, and James Mazzola, a principal of ERA, filed for binding arbitration related to the termination of ERA's sales representative agreement raising multiple claims that aggregate to approximately \$9,000 in direct damages, with treble damages requested on a number of those claims. ERA was a sales representative of Themis Computer ("Themis") when Themis was acquired by Mercury. The sales representative agreement provided for termination by either party upon 30 days written notice with ERA entitled to commissions for orders obtained by ERA with product shipment occurring prior to termination. The Company responded to the complaint in July 2021. An arbitration proceeding was held during September 2022, with final motions in October 2022 and oral arguments in November 2022. The arbitrator issued its final ruling in January 2023, awarding ERA \$72 in damages and fees.

In December 2021, counsel for National Technical Systems, Inc. ("NTS") sent the Company an environmental demand letter pursuant to Massachusetts General Laws Chapter 21E, Section 4A, and CERCLA 42 U.S.C. Section 9601, related to a site that NTS formerly owned at 533 Main Street, Acton, Massachusetts. NTS received a Notice of Responsibility from the Massachusetts Department of Environmental Protection ("MassDEP") alleging trichloroethene, freon and 1,4-dioxane contamination in the groundwater emanating from NTS's former site. NTS alleges in its demand letter that the operations of a predecessor company to Mercury that was acquired in the Company's acquisition of the Microsemi carve-out business that once owned and operated a facility at 531 Main Street, Acton, Massachusetts contributed to the groundwater contamination. NTS is seeking payment by the Company of NTS's costs for any required environmental remediation. In April 2022, the Company engaged in a meet and confer session with NTS pursuant to Massachusetts General Laws Chapter 21E, Section 4A to discuss the status of the environmental review performed by NTS and its licensed site professional. In addition, in November 2021, the Company responded to a request for information from MassDEP regarding the detection of PFAS (per- and polyfluoroakyl substances) in the Acton, Massachusetts Water District's Conant public water supply wells near the former facility at 531 Main Street, Acton, Massachusetts at a level above the standard that MassDEP published for PFAS in October 2020. It is too early to determine what responsibility, if any, the Company may have for these matters.

INDEMNIFICATION OBLIGATIONS

The Company's standard product sales and license agreements entered into in the ordinary course of business typically contain an indemnification provision pursuant to which the Company indemnifies, holds harmless, and agrees to reimburse the indemnified party for losses suffered or incurred by the indemnified party in connection with any patent, copyright or other intellectual property infringement claim by any third-party with respect to the Company's products. Such provisions generally survive termination or expiration of the agreements. The potential amount of future payments the Company could be required to make under these indemnification provisions is, in some instances, unlimited.

PURCHASE COMMITMENTS

As of December 30, 2022, the Company has entered into non-cancelable purchase commitments for certain inventory components and services used in its normal operations. The purchase commitments covered by these agreements are for less than one year and aggregate to \$142,932.

OTHER

As part of the Company's strategy for growth, the Company continues to explore acquisitions or strategic alliances. The associated acquisition costs incurred in the form of professional fees and services may be material to the future periods in which they occur, regardless of whether the acquisition is ultimately completed.

The Company may elect from time to time to purchase and subsequently retire shares of common stock in order to settle employees' tax liabilities associated with vesting of a restricted stock award or exercise of stock options. These transactions would be treated as a use of cash in financing activities in the Company's Consolidated Statements of Cash Flows.

O. Derivatives

The Company utilizes interest rate derivatives to mitigate interest rate exposure with respect to its financing arrangements. On September 7, 2022, the Company entered into an interest rate Swap (the "initial Swap") with JP Morgan Chase Bank, N.A. ("JPMorgan") for a notional amount of \$300,000 in order to fix the interest rate associated with a portion of the total \$511,500 existing borrowings on the Revolver. The initial Swap agreement was designated and qualified for hedge accounting treatment as a cash flow hedge. The initial Swap matures on February 28, 2027, coterminous with the maturity of the Revolver. The initial Swap established a fixed interest rate on the first \$300,000 of the Company's outstanding borrowings against the Revolver obligation at 3.25%.

On September 29, 2022, the Company terminated the initial Swap. At the time of termination, the fair value of the initial Swap was an asset of \$5,995. The Company received the cash settlement of \$5,995 and these proceeds are classified within Operating Activities of the Consolidated Statements of Cash Flows.

Following the termination of the initial Swap the Company entered a new Swap agreement ("the Swap") on September 29, 2022 with JPMorgan. The Swap fixes \$300,000 of the total \$511,500 existing borrowings of outstanding borrowings under the Revolver at a rate of 3.79%. As of December 30, 2022, the fair value of the hedge was a liability of \$220 and is included within Other non-current liabilities in the Company's Consolidated Balance Sheets. During the second quarter ended December 30, 2022, the Company amortized \$339 of the previous unrealized gain, which is included within Other comprehensive loss.

The market risk associated with the Company's derivative instrument is the result of interest rate movements that are expected to offset the market risk of the underlying arrangement. The counterparty to the Swap is JPMorgan. Based on the credit ratings of the Company's counterparty as of December 30, 2022, nonperformance is not perceived to be a material risk. Furthermore, none of the Company's derivatives are subject to collateral or other security arrangements and none contain provisions that are dependent on the Company's credit ratings from any credit rating agency. While the contract or notional amounts of derivative financial instruments provide one measure of the volume of these transactions, they do not represent the amount of the Company's exposure to credit risk. The amounts potentially subject to credit risk (arising from the possible inability of the counterparty to meet the terms of their contracts) are generally limited to the amounts, if any, by which the counterparty obligations under the contracts exceed the obligations of the Company to the counterparty. As a result of the above considerations, the Company does not consider the risk of counterparty default to be significant.

P. Subsequent Events

On January 31, 2023, the Company announced that Michael Ruppert, Executive Vice President, Chief Financial Officer, and Treasurer, will step down from the Company, effective February 17, 2023. Michelle McCarthy, Senior Vice President, Chief Accounting Officer, will serve as Mercury's interim Chief Financial Officer.

On January 31, 2023, the Board of Directors announced the decision to initiate a review of strategic alternatives to enhance shareholder value, including a potential sale of the Company. There can be no assurance that any transaction will be approved or consummated.

Additional details are contained in the Current Report on Form 8-K filed by the Company with the SEC on January 31, 2023.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS

From time to time, information provided, statements made by our employees or information included in our filings with the Securities and Exchange Commission ("SEC") may contain statements that are not historical facts but that are "forward-looking statements," which involve risks and uncertainties. You can identify these statements by the use of the words "may," "will," "could," "should," "plans," "expects," "anticipates," "continue," "estimate," "project," "intend," "likely," "forecast," "probable," "potential," and similar expressions. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected or anticipated. Such risks and uncertainties include, but are not limited to, continued funding of defense programs, the timing and amounts of such funding, general economic and business conditions, including unforeseen weakness in the Company's markets, effects of epidemics and pandemics such as COVID, effects of any U.S. Federal government shutdown or extended continuing resolution, effects of continued geopolitical unrest and regional conflicts, competition, inflation, changes in technology and methods of marketing, delays in completing engineering and manufacturing programs, changes in customer order patterns, changes in product mix, continued success in technological advances and delivering technological innovations, changes in, or in the U.S. Government's interpretation of, federal export control or procurement rules and regulations, changes in, or in the interpretation or enforcement of, environmental rules and regulations, market acceptance of the Company's products, shortages in or delays in receiving components, supply chain delays or volatility for critical components such as semiconductors, production delays or unanticipated expenses including due to performance quality issues or manufacturing execution issues, the impact of the COVID pandemic and supply chain disruption, inflation and labor shortages, among other things, on program execution and the resulting effect on customer satisfaction, inability to fully realize the expected benefits from acquisitions, restructurings and value creation initiatives such as 1MPACT, or delays in realizing such benefits, challenges in integrating acquired businesses and achieving anticipated synergies, effects of shareholder activism, increases in interest rates, changes to industrial security and cyber-security regulations and requirements, changes in tax rates or tax regulations, such as the deductibility of internal research and development, changes to interest rate swaps or other cash flow hedging arrangements, changes to generally accepted accounting principles, difficulties in retaining key employees and customers, which difficulties may be enhanced by our announced strategic review initiative, including a potential sale of the Company, unanticipated challenges with the transition of the Company's Chief Financial Officer role, unanticipated costs under fixed-price service and system integration engagements, and various other factors beyond our control. These risks and uncertainties also include such additional risk factors as set forth under Part I-Item 1A (Risk Factors) in the Company's Annual Report on Form 10-K for the fiscal year ended July 1, 2022. We caution readers not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. We undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made.

OVERVIEW

Mercury Systems, Inc. is a technology company that delivers commercial innovation to rapidly transform the global aerospace and defense industry. Headquartered in Andover, Massachusetts, our end-to-end processing platform enables a broad range of aerospace and defense programs, optimized for mission success in some of the most challenging and demanding environments. Our Processing Platform includes signal solutions, display, software applications, networking, storage and secure processing. Our innovative solutions are mission-ready, trusted and secure, software-defined and open and modular to meet our customers' most-pressing high-tech needs, including those specific to the aerospace and defense community. Customers access our solutions via the Mercury platform, which encompasses the broad scope of our investments in technologies, companies, products, services and the expertise of our people. Ultimately, we connect our customers to what matters most to them. We connect commercial technology to defense, people to data, partners to opportunities and the present to the future. And, at the most human level, we connect what we do to our customers' missions; supporting the people for whom safety, security and protecting freedom are of paramount importance.

As a leading manufacturer of essential components, products, modules and subsystems, we sell to defense prime contractors, the U.S. government and original equipment manufacturers ("OEM") commercial aerospace companies. We have built a trusted, contemporary portfolio of proven product solutions purpose-built for aerospace and defense that we believe meets and exceeds the performance needs of our defense and commercial customers. Customers add their own applications and algorithms to our specialized, secure and innovative products and pre-integrated solutions. This allows them to complete their full system by integrating with their platform, the sensor technology and, increasingly, the processing from us. Our products and solutions are deployed in more than 300 programs with over 25 different defense prime contractors and commercial aviation customers.

Our transformational business model accelerates the process of making new technology profoundly more accessible to our customers by bridging the gap between commercial technology and aerospace and defense applications. Our long-standing deep relationships with leading high-tech and other commercial companies, coupled with our high level of research and development ("R&D") investments on a percentage basis and industry-leading trusted and secure design and manufacturing capabilities, are the foundational tenets of this highly successful model. We are leading the development and adaptation of commercial

technology for aerospace and defense solutions. From chip-scale to system scale and from data, including radio frequency ("RF") to digital to decision, we make mission-critical technologies safe, secure, affordable and relevant for our customers.

Our capabilities, technology, people and R&D investment strategy combine to differentiate us in our industry. We maintain our technological edge by investing in critical capabilities and intellectual property ("IP" or "building blocks") in processing, leveraging open standards and open architectures to adapt quickly those building blocks into solutions for highly data-intensive applications, including emerging needs in areas such as artificial intelligence ("AI").

Our mission critical solutions are deployed by our customers for a variety of applications including command, control, communications, computers, intelligence, surveillance and reconnaissance ("C4ISR"), electronic intelligence, mission computing avionics, electro-optical/infrared ("EO/IR"), electronic warfare, weapons and missile defense, hypersonics and radar.

Since we conduct much of our business with our defense customers via commercial items, requests by customers are a primary driver of revenue fluctuations from quarter to quarter. Customers specify delivery date requirements that coincide with their need for our products. Because these customers may use our products in connection with a variety of defense programs or other projects of different sizes and durations, a customer's orders for one quarter generally do not indicate a trend for future orders by that customer. Additionally, order patterns do not necessarily correlate amongst customers and, therefore, we generally cannot identify sequential quarterly trends.

As of December 30, 2022, we had 2,486 employees. We employ hardware and software architects and design engineers, primarily engaged in engineering and research and product development activities to achieve our objectives to fully capitalize upon and maintain our technological leads in the high-performance, real-time sensor processing industry and in mission computing, platform management and other safety-critical applications. Our talent attraction, engagement and retention is critical to execute on our long-term strategy. We invest in our culture and values to drive employee engagement that turns ideas into action, delivering trusted and secure solutions at the speed of innovation. We believe that our success depends on our ability to embrace diversity company-wide and realize the benefits of a diverse workforce that includes a greater variety of solutions to problems, a broader collection of skills and experiences and an array of viewpoints to consider. We are strongly focused on providing an inclusive environment that respects the diversity of the world. We believe that the workforce required to grow our business and deliver creative solutions must be rich in diversity of thought, experience and culture. Our diversity and inclusion initiatives focus on building and maintaining the talent that will create cohesive and collaborative teams that drive innovation. We believe that these values will help our employees realize their full potentials at work to provide Innovation That Matters®.

Our consolidated revenues, acquired revenues, net loss, diluted net loss per share, adjusted earnings per share ("adjusted EPS"), and adjusted EBITDA for the second quarter ended December 30, 2022 were \$229.6 million, \$13.3 million, \$(10.9) million, \$(0.19), \$0.26, and \$35.7 million, respectively. Our consolidated revenues, acquired revenues, net loss, diluted net loss per share, adjusted earnings per share ("adjusted EPS"), and adjusted EBITDA for the six months ended December 30, 2022 were \$457.2 million, \$(25.3) million, \$(0.45), \$0.50, and \$66.9 million. See the Non-GAAP Financial Measures section for a reconciliation to our most directly comparable GAAP financial measures.

RESULTS OF OPERATIONS:

Results of operations for the second quarter and six months ended December 30, 2022 includes full period results from the acquisitions of Atlanta Micro, Inc ("Atlanta Micro") and Avalex Technologies, LLC. ("Avalex"). Results of operations for the second quarter and six months ended December 31, 2021 include only results from the acquisition dates for Atlanta Micro and Avalex. Accordingly, the periods presented below are not directly comparable.

The second quarter ended December 30, 2022 compared to the second quarter ended December 31, 2021

The following table sets forth, for the second quarter ended indicated, financial data from the Consolidated Statements of Operations and Comprehensive Loss:

| (In thousands) | De | cember 30, 2022 | As a % of Total Net Revenue | December 31, 2021 | As a % of Total Net Revenue |
|--|----|-----------------|-----------------------------------|-------------------|-----------------------------------|
| Net revenues | \$ | 229,588 | 100.0 % | \$ 220,380 | 100.0 % |
| Cost of revenues | | 148,628 | 64.7 | 133,158 | 60.4 |
| Gross margin | | 80,960 | 35.3 | 87,222 | 39.6 |
| Operating expenses: | | | | | |
| Selling, general and administrative | | 45,057 | 19.6 | 36,810 | 16.7 |
| Research and development | | 26,906 | 11.7 | 28,335 | 12.9 |
| Amortization of intangible assets | | 13,536 | 5.9 | 16,002 | 7.3 |
| Restructuring and other charges | | 2,069 | 1.0 | 3,802 | 1.7 |
| Acquisition costs and other related expenses | | 939 | 0.4 | 2,660 | 1.2 |
| Total operating expenses | | 88,507 | 38.6 | 87,609 | 39.8 |
| Loss from operations | | (7,547) | (3.3) | (387) | (0.2) |
| Interest income | | 220 | 0.1 | 5 | _ |
| Interest expense | | (6,590) | (2.9) | (1,094) | (0.5) |
| Other income (expense), net | | 846 | 0.4 | (1,318) | (0.6) |
| Loss before income taxes | | (13,071) | (5.7) | (2,794) | (1.3) |
| Income tax benefit | | (2,151) | (0.9) | (155) | (0.1) |
| Net loss | \$ | (10,920) | (4.8)% | \$ (2,639) | (1.2)% |

REVENUES

Total revenues increased \$9.2 million, or 4.2%, to \$229.6 million during the second quarter ended December 30, 2022, as compared to \$220.4 million during the second quarter ended December 31, 2021, including "acquired revenue" which represents net revenue from acquired businesses that have been part of Mercury for completion of four full quarters or less (and excludes any intercompany transactions). After the completion of four full fiscal quarters, acquired businesses will be treated as organic for current and comparable historical periods. The increase in total revenue was primarily due to an additional \$7.2 million of acquired revenues from the Atlanta Micro and Avalex businesses and an additional \$2.0 million of organic revenues. These increases were driven by modules and sub-assemblies and components product groupings which increased \$15.6 million and \$13.7 million, respectively, partially offset by decreases to integrated subsystems of \$20.1 million. The increase in total revenue was primarily from C4I, other sensor and effector and electronic warfare end applications which increased \$12.8 million, respectively. The increase was primarily across the airborne and other platforms which grew \$9.0 million and \$2.5 million, respectively, partially offset by a decrease to the naval platform of \$3.0 million during the second quarter ended December 30, 2022. The largest program increases were related to the F-35, NDSA Tranche Tracking Layer, F-16, and LTAMDS programs. There were no programs comprising 10% or more of our revenues for the second quarters ended December 30, 2022 or December 31, 2021. See the Non-GAAP Financial Measures section for a reconciliation to our most directly comparable GAAP financial measures.

GROSS MARGIN

Gross margin was 35.3% for the second quarter ended December 30, 2022, a decrease of 430 basis points from the 39.6% gross margin realized during the second quarter ended December 31, 2021. The lower gross margin was primarily driven by program mix, incremental depreciation expense. Program mix was heavily impacted by a customer funding delay on a large FMS sale as well as a higher proportion of lower-margin development programs. These programs generally include higher engineering content evidenced by an increase of \$1.9 million in Customer Funded Research and Development ("CRAD") compared to the second quarter ended December 31, 2021. CRAD primarily represents engineering labor associated with long-term contracts for customized development, production and service activities. The nature of these efforts result in lower margin content, but serve as pre-cursors to higher margin production awards. These products are predominantly grouped within integrated subsystems and to a lesser extent modules and sub-assemblies. Incremental depreciation expense of \$2.5 million was recorded in the second quarter ended December 30, 2022. In connection with our 1MPACT facility optimization efforts, we are exiting certain facilities prior to contractual lease terms and consolidating operations across other existing sites. As part of our assessment of future benefits of certain long-lived assets, we identified an immaterial correction of an error in the useful lives assigned to certain leasehold improvements resulting in a cumulative adjustment to depreciation expense.

SELLING, GENERAL AND ADMINISTRATIVE

Selling, general and administrative expenses increased \$8.3 million, or 22.4%, to \$45.1 million during the second quarter ended December 30, 2022, as compared to \$36.8 million in the second quarter ended December 31, 2021. The increase was primarily related to increased stock compensation expense of \$3.0 million related to share-based matching contributions as well as changes to our performance factors associated with performance-based restricted stock awards. The increase was also driven by additional compensation costs and depreciation expense of \$2.0 million and \$1.9 million, respectively. Full quarter results from our Avalex and Atlanta Micro acquisitions also contributed to the increase, driving \$0.4 million of incremental expense.

RESEARCH AND DEVELOPMENT

Research and development expenses decreased \$1.4 million, or 5.0%, to \$26.9 million during the second quarter ended December 30, 2022, as compared to \$28.3 million during the second quarter ended December 31, 2021. The decrease was primarily related to an incremental \$1.9 million of CRAD, partially offset by \$0.7 million of incremental expense from our recent acquisitions of Avalex and Atlanta Micro during the second quarter ended December 30, 2022.

AMORTIZATION OF INTANGIBLE ASSETS

Amortization of intangible assets decreased \$2.5 million to \$13.5 million during the second quarter ended December 30, 2022, as compared to \$16.0 million during the second quarter ended December 31, 2021, primarily due to the backlog from our Physical Optics Corporation ("POC") acquisition being fully amortized in fiscal 2022, partially offset by the amortization over intangible assets associated with the acquisitions of Avalex and Atlanta Micro.

RESTRUCTURING AND OTHER CHARGES

During the second quarter ended December 30, 2022, the Company incurred \$2.1 million of restructuring and other charges, as compared to \$3.8 million during the second quarter ended December 31, 2021. Restructuring and other charges includes \$1.0 million of costs related to facility optimization efforts associated with 1MPACT, including \$0.8 million related to lease asset impairment, as well as \$0.6 million related to severance costs and the remaining \$0.4 million related to third-party consulting costs associated with 1MPACT. During the second quarter ended December 31, 2021, restructuring and other charges related to third-party consulting costs associated with 1MPACT.

ACQUISITION COSTS AND OTHER RELATED EXPENSES

Acquisition costs and other related expenses were \$0.9 million during the second quarter ended December 30, 2022 as compared to \$2.7 million during the second quarter ended December 31, 2021. The acquisition costs and other related expenses during the second quarter ended December 30, 2022 were primarily related to \$0.6 million for third-party advisory fees in connection with engagements by activist investors and other acquisition related costs. We expect to continue to incur such acquisition costs and other related expenses in the future as we continue to seek acquisition opportunities to expand our technological capabilities and especially within secure processing, open mission systems, C3 and trusted microelectronics. Transaction costs incurred by the acquiree prior to the consummation of an acquisition would not be reflected in our historical results of operations. We also expect to incur costs related to the Board of Directors' review of strategic alternatives to enhance shareholder value.

INTEREST EXPENSE

We incurred \$6.6 million of interest expense during the second quarter ended December 30, 2022, related to the \$511.5 million outstanding balance on our existing credit facility (the "Revolver") as compared to \$1.1 million during the second quarter ended December 31, 2021 as a result of \$451.5 million of total borrowings on our Revolver. The increase in interest expense was primarily related to the timing and duration of borrowings on our Revolver.

OTHER INCOME (EXPENSE), NET

Other income (expense), net increased to \$0.8 million during the second quarter ended December 30, 2022, as compared to \$(1.3) million during the second quarter ended December 31, 2021. The second quarter ended December 30, 2022 includes net foreign currency translation gains of \$1.3 million, as compared to net foreign currency translation losses of \$0.2 million during the second quarter ended December 31, 2021, and lower litigation and settlement expenses of \$0.4 million, partially offset by an incremental \$0.4 million of loss on disposal of fixed assets.

INCOME TAXES

We recorded an income tax benefit of \$2.2 million and \$0.2 million on a loss before income taxes of \$13.1 million and \$2.8 million for the second quarters ended December 30, 2022 and December 31, 2021, respectively.

During the second quarter ended December 30, 2022, we recognized a tax benefit of \$2.3 million related to a release of income tax reserves for unrecognized income tax benefits due to the expiration of the statute of limitations.

The effective tax rate for the second quarters ended December 30, 2022 and December 31, 2021 differed from the federal statutory rate primarily due to federal and state research and development credits, non-deductible compensation, stock compensation shortfalls and state taxes. The effective tax rate for the second quarter ended December 30, 2022 also differed from the federal statutory rate due to the release for previously unrecognized income tax benefits.

On August 16, 2022, President Biden signed the Inflation Reduction Act of 2022 into law which contained provisions that include a 15% corporate minimum tax effective for taxable years beginning after December 31, 2022 and a 1% excise tax on certain stock buybacks after December 31, 2022. We expect the impact of this legislation to be immaterial.

Effective for tax years beginning after December 31, 2021, the Tax Cuts and Jobs Act of 2017 requires companies to capitalize and amortize domestic research and development expenditures over five years for tax purposes, and foreign research and development expenditures over fifteen years for tax purposes. We estimate the cash impact from this provision to be approximately \$36 million in fiscal 2023.

Six months ended December 30, 2022 compared to the six months ended December 31, 2021

The following tables set forth, for the six month periods indicated, financial data from the Consolidated Statements of Operations and Comprehensive Income:

| (In thousands) | December 30, 2022 | As a % of Total Net Revenue | December 31, 2021 | As a % of Total Net Revenue |
|--|-------------------|-----------------------------------|-------------------|-----------------------------------|
| Net revenues | \$ 457,167 | 100.0 % | \$ 445,393 | 100.0 % |
| Cost of revenues | 298,112 | 65.2 | 269,762 | 60.6 |
| Gross margin | 159,055 | 34.8 | 175,631 | 39.4 |
| Operating expenses: | | | | |
| Selling, general and administrative | 84,000 | 18.4 | 73,766 | 16.5 |
| Research and development | 54,672 | 12.0 | 57,217 | 12.8 |
| Amortization of intangible assets | 28,110 | 6.1 | 29,736 | 6.7 |
| Restructuring and other charges | 3,577 | 0.8 | 16,076 | 3.6 |
| Acquisition costs and other related expenses | 3,437 | 0.8 | 4,798 | 1.1 |
| Total operating expenses | 173,796 | 38.1 | 181,593 | 40.7 |
| Loss from operations | (14,741) | (3.3) | (5,962) | (1.3) |
| Interest income | 249 | 0.1 | 14 | — |
| Interest expense | (11,137) | (2.4) | (1,689) | (0.4) |
| Other expense, net | (2,799) | (0.6) | (2,738) | (0.6) |
| Loss before income taxes | (28,428) | (6.2) | (10,375) | (2.3) |
| Income tax benefit | (3,173) | (0.7) | (596) | (0.1) |
| Net loss | \$ (25,255) | (5.5)% | \$ (9,779) | (2.2)% |

REVENUES

Total revenues increased \$11.8 million, or 2.6%, to \$457.2 million during the six months ended December 30, 2022, as compared to \$445.4 million during the six months ended December 31, 2021. The increase in total revenue was primarily due to an additional \$19.0 million of acquired revenues, partially offset by \$7.3 million less organic revenues. The increase was driven by higher demand for modules and sub-assemblies and components which increased \$36.5 million and \$10.5 million, respectively, and were partially offset by decreases in integrated subsystems of \$35.3 million during the six months ended December 30, 2022. The increase in total revenue was primarily from the C4I and electronic warfare end applications which increased \$24.5 million and \$2.5 million, respectively, and were partially offset by decreases of \$13.0 million and \$3.1 million from radar and other sensor and effector end applications, respectively. The increase was primarily across the other and airborne platforms which grew \$11.5 million and \$10.7 million, respectively, partially offset by a decrease to the naval and land platforms which decreased \$9.3 million and \$1.2 million, respectively, during the six months ended December 30, 2022. The largest program increases were related to the LTAMDS, F-35, F-16 and NDSA Tranche Tracking Layer programs. There were no programs comprising 10% or more of our revenues for the six months ended December 30, 2022 or December 31, 2021. See the Non-GAAP Financial Measures section for a reconciliation to our most directly comparable GAAP financial measures.

GROSS MARGIN

Gross margin was 34.8% for the six months ended December 30, 2022, a decrease of 460 basis points from the 39.4% gross margin realized during the six months ended December 31, 2021. The lower gross margin was primarily driven by program mix, incremental depreciation expense. Program mix was heavily impacted by a customer funding delay on a large FMS sale as well as a higher proportion of lower-margin development programs. These programs generally include higher engineering content evidenced by an increase of \$5.2 million in CRAD compared to six months ended December 31, 2021. Incremental depreciation expense of \$2.5 million was recorded in the six months ended December 30, 2022. In connection with our 1MPACT facility optimization efforts, we are exiting certain facilities prior to contractual lease terms and consolidating operations across other existing sites. As part of our assessment of future benefits of certain long-lived assets, we identified an immaterial correction of an error in the useful lives assigned to certain leasehold improvements resulting in a cumulative adjustment to depreciation expense.

SELLING, GENERAL AND ADMINISTRATIVE

Selling, general and administrative expenses increased \$10.2 million, or 13.9%, to \$84.0 million during the six months ended December 30, 2022, as compared to \$73.8 million during the six months ended December 31, 2021. The increase was primarily related to a full period of the Avalex and Atlanta Micro acquisitions driving an incremental \$1.9 million of expense during the six months ended December 30, 2022. There was also \$1.6 million of additional employee related stock compensation as well as changes to our performance factors associated with performance-based restricted stock awards during the six months ended December 30, 2022.

RESEARCH AND DEVELOPMENT

Research and development expenses decreased \$2.5 million, or 4.4%, to \$54.7 million during the six months ended December 30, 2022, as compared to \$57.2 million during the six months ended December 31, 2021. The decrease was primarily related to incremental CRAD of \$5.2 million, partially offset by \$2.0 million of incremental expense from our recent acquisitions of Avalex and Atlanta Micro during the six months ended December 30, 2022.

RESTRUCTURING AND OTHER CHARGES

Restructuring and other charges were \$3.6 million during the six months ended December 30, 2022, as compared to \$16.1 million during the six months ended December 31, 2021. Restructuring and other charges during the six months ended December 30, 2022 primarily related to 1MPACT including \$1.7 million of third-party consulting costs, \$1.0 million of costs for facility optimization efforts, including \$0.8 million related to lease asset impairment, as well as \$0.8 million of severance costs associated with the elimination of approximately 10 positions. Restructuring and other charges during the six months ended December 31, 2021 includes \$8.7 million of third-party consulting costs associated with 1MPACT and \$7.4 million of severance costs associated with the elimination of approximately 100 positions based on changes in the business environment and alignment with internal organization changes completed under 1MPACT.

ACQUISITION COSTS AND OTHER RELATED EXPENSES

Acquisition costs and other related expenses were \$3.4 million during the six months ended December 30, 2022, as compared to \$4.8 million during the six months ended December 31, 2021. The acquisition costs and other related expenses we incurred during the six months ended December 30, 2022 were primarily related to \$2.5 million for third-party advisory fees in connection with engagements by activist investors and other acquisition related costs. Acquisition costs during the six months ended December 31, 2021 were primarily related to the acquisitions of Avalex and Atlanta Micro. We expect to continue to incur such acquisition costs and other related expenses in the future as we continue to seek acquisition opportunities to expand our technological capabilities and especially within secure processing, open mission systems, C3 and trusted microelectronics. Transaction costs incurred by the acquiree prior to the consummation of an acquisition would not be reflected in our historical results of operations. We also expect to incur costs related to the Board of Directors' review of strategic alternatives to enhance shareholder value.

INTEREST EXPENSE

We incurred \$11.1 million of interest expense during the six months ended December 30, 2022, as compared to \$1.7 million during the six months ended December 31, 2021. The increase was driven by additional borrowings on our Revolver as well as an increase in interest rate as compared to the six months ended December 31, 2021.

OTHER EXPENSE, NET

Other expense, net remained consistent during the six months ended December 30, 2022 and December 31, 2021. There was \$1.2 million of net foreign currency translation gains, partially offset by \$0.6 million of litigation and settlement expenses and \$0.3 million of amortization of a previous unrealized gain during the six months ended December 30, 2022. There was \$0.9 million of litigation and settlement expenses and \$0.7 million of net foreign currency translation losses during the six months ended December 31, 2021. Both the six months ended December 30, 2022 and December 31, 2021 include \$1.2 million of financing costs.

INCOME TAXES

We recorded an income tax benefit of \$3.2 million and \$0.6 million on a loss before income taxes of \$28.4 million and \$10.4 million for the six months ended December 30, 2022 and December 31, 2021, respectively.

During the six months ended December 30, 2022, we recognized a tax benefit of \$2.3 million related to a release of income tax reserves for unrecognized income tax benefits due to the expiration of the statute of limitations. During the six months ended December 30, 2022 and December 31, 2021, we recognized a tax provision of \$1.7 million and \$0.9 million related to stock compensation shortfalls, respectively.

The effective tax rate for the six months ended December 30, 2022 and December 31, 2021 differed from the federal statutory rate primarily due to federal and state research and development credits, non-deductible compensation, stock compensation shortfalls and state taxes. The effective tax rate for the six months ended December 30, 2022 also differed from the federal statutory rate due to the release of income tax reserves for previously unrecognized income tax benefits.

On August 16, 2022, President Biden signed the Inflation Reduction Act of 2022 into law which contained provisions that include a 15% corporate minimum tax effective for taxable years beginning after December 31, 2022 and a 1% excise tax on certain stock buybacks after December 31, 2022. We expect the impact of this legislation to be immaterial.

Effective for tax years beginning after December 31, 2021, the Tax Cuts and Jobs Act of 2017 requires companies to capitalize and amortize domestic research and development expenditures over five years for tax purposes, and foreign research and development expenditures over fifteen years for tax purposes. We estimate the cash impact from this provision to be approximately \$36 million in fiscal 2023.

LIQUIDITY AND CAPITAL RESOURCES

Our primary sources of liquidity come from existing cash and cash generated from operations, our Revolver, our ability to raise capital under our universal shelf registration statement and our ability to factor our receivables. Our near-term fixed commitments for cash expenditures consist primarily of payments under operating leases and inventory purchase commitments. We plan to continue to invest in improvements to our facilities, continuous evaluation of potential acquisition opportunities and internal R&D to promote future growth, including new opportunities in avionics mission computers, secure processing, radar modernization and trusted custom microelectronics. We also expect to incur costs related to the Board of Directors' review of strategic alternatives to enhance shareholder value.

Based on our current plans and business conditions, we believe that existing cash and cash equivalents, our available Revolver, cash generated from operations and our financing capabilities will be sufficient to satisfy our anticipated cash requirements for at least the next twelve months.

Shelf Registration Statement

On September 14, 2020, we filed a shelf registration statement on Form S-3ASR with the SEC. The shelf registration statement, which was effective upon filing with the SEC, registered each of the following securities: debt securities, preferred stock, common stock, warrants and units. We intend to use the proceeds from financings using the shelf registration statement for general corporate purposes, which may include the following:

- the acquisition of other companies or businesses;
- the repayment and refinancing of debt;
- capital expenditures;
- working capital; and
- other purposes as described in the prospectus supplement.

We have an unlimited amount available under the shelf registration statement.

Revolving Credit Facilities

On February 28, 2022, we amended the Revolver to increase and extend the borrowing capacity to a \$1.1 billion, 5-year revolving credit line, with the maturity extended to February 28, 2027. As of December 30, 2022, we had \$511.5 million of outstanding borrowings on the Revolver. See Note I in the accompanying consolidated financial statements for further discussion of the Revolver.

Receivables Purchase Agreement

On September 27, 2022, we entered into an uncommitted receivables purchase agreement ("RPA") with Bank of the West, as purchaser, pursuant to which we may offer to sell certain customer receivables, subject to the terms and conditions of the RPA. The RPA is an uncommitted arrangement such that we are not obligated to sell any receivables and Bank of the West has no obligation to purchase any receivables from us. Pursuant to the RPA, Bank of the West may purchase certain of our customer receivables at a discounted rate, subject to a limit that as of any date, the total amount of purchased receivables held by Bank of the West, less the amount of all collections received on such receivables, may not exceed \$20.0 million. The RPA has an indefinite term and the agreement remains in effect until it is terminated by either party. We factored accounts receivable and incurred factoring fees of approximately \$20.0 million and \$0.1 million, respectively, for the six months ended December 30, 2022. We did not factor any accounts receivable or incur any factoring fees for the six months ended December 31, 2021.

CASH FLOWS

| | | As of and For the Six Months Ended, | | | | | | |
|--|-----|-------------------------------------|----|-------------------|--|--|--|--|
| (In thousands) | Dec | ember 30, 2022 | | December 31, 2021 | | | | |
| Net cash (used in) provided by operating activities | \$ | (30,647) | \$ | 4,818 | | | | |
| Net cash used in investing activities | \$ | (20,402) | \$ | (259,890) | | | | |
| Net cash provided by financing activities | \$ | 62,330 | \$ | 246,517 | | | | |
| Net increase (decrease) in cash and cash equivalents | \$ | 11,290 | \$ | (8,670) | | | | |
| Cash and cash equivalents at end of period | \$ | 76,944 | \$ | 105,169 | | | | |

Our cash and cash equivalents increased by \$11.3 million from July 1, 2022 to December 30, 2022, primarily as the result of \$60.0 million of net borrowings on our Revolver and \$2.4 million of proceeds from employee stock plans. These increases were partially offset by \$30.6 million used in operating activities and \$20.5 million invested in purchases of property and equipment.

Operating Activities

During the six months ended December 30, 2022, we had an outflow of \$30.6 million in cash from operating activities and we generated \$4.8 million in cash from operating activities during the six months ended December 31, 2021. The decrease was primarily due to higher outflows for inventory as we continue to accelerate raw material purchases to support customer delivery schedules and mitigate supply chain risk in future quarters, particularly in light of the long lead times for semiconductors. The decrease was also driven by net changes in benefit for deferred income taxes, prepaid income taxes and income taxes payable, as well as increases in accounts receivables, including unbilled receivables and costs in excess of billings, driven by contracting as well as supplier delays which impacted the timing of billing events and cash conversion. Higher outflows of accounts payable, accrued expenses and accrued compensation also contributed to the decrease. These decreases were partially offset by additional deferred revenues and customer advances as well as cash paid for income taxes.

Investing Activities

During the six months ended December 30, 2022, we invested \$20.4 million, a decrease of \$239.5 million, as compared to the six months ended December 31, 2021 primarily driven by the acquisitions of Avalex and Atlanta Micro. The decrease was also driven by \$3.3 million less other investing activities partially offset by \$7.1 million higher purchases of property and equipment as compared to the second quarter ended December 31, 2021.

Financing Activities

During the six months ended December 30, 2022, we had \$60.0 million of net borrowings on our Revolver as compared to \$251.5 million of net borrowings during the six months ended December 31, 2021. We also had \$0.1 million of cash payments related to the purchase and retirement of common stock used to settle individual employees' tax liabilities associated with the annual vesting of restricted stock awards, as compared to \$7.5 million in the second quarter ended December 31, 2021. The decrease in the payments related to the purchase and retirement of common stock used to settle individual employees' tax liabilities associated with vesting of restricted stock awards, as compared to \$7.5 million in the second quarter ended becember 31, 2021. The decrease in the payments related to the purchase and retirement of common stock used to settle individual employees' tax liabilities associated with vesting of restricted stock awards is due to a change in our incentive stock plan tax withholding methods.

COMMITMENTS, CONTRACTUAL OBLIGATIONS AND CONTINGENCIES

The following is a schedule of our commitments and contractual obligations outstanding at December 30, 2022:

| (In thousands) | Total | Less Than 1 Year | 1-3 Years | 3-5 Years | I | More Than 5 Years |
|----------------------|---------------|---------------------|--------------|--------------|----|----------------------|
| Purchase obligations | \$ 142,932 | \$ 142,932 | \$ | \$ _ | \$ | — |
| Operating leases | 89,066 | 14,120 | 24,809 | 20,593 | | 29,544 |
| | \$ 231,998 | \$ 157,052 | \$ 24,809 | \$ 20,593 | \$ | 29,544 |

Purchase obligations represent open non-cancelable purchase commitments for certain inventory components and services used in normal operations. The purchase commitments covered by these agreements are for less than one year and aggregated approximately \$142.9 million at December 30, 2022.

We have a liability at December 30, 2022 of \$6.2 million for uncertain tax positions that have been taken or are expected to be taken in various income tax returns. We do not know the ultimate resolution on these uncertain tax positions and as such, do not know the ultimate timing of payments or amount, if any, related to this liability. Accordingly, these amounts are not included in the above table.

Our standard product sales and license agreements entered into in the ordinary course of business typically contain an indemnification provision pursuant to which we indemnify, hold harmless and agree to reimburse the indemnified party for losses suffered or incurred in connection with certain intellectual property infringement claims by any third-party with respect to our products. Such provisions generally survive termination or expiration of the agreements. The potential amount of future payments we could be required to make under these indemnification provisions is, in some instances, unlimited.

As part of our strategy for growth, we continue to explore acquisitions or strategic alliances. The associated acquisition costs incurred in the form of professional fees and services may be material to the future periods in which they occur, regardless of whether the acquisition is ultimately completed.

We may elect from time to time to purchase and subsequently retire shares of common stock in order to settle employees' tax liabilities associated with vesting of a restricted stock award. These transactions would be treated as a use of cash in financing activities in our Consolidated Statements of Cash Flows.

OFF-BALANCE SHEET ARRANGEMENTS

Other than certain indemnification provisions in the normal course of business, we do not have any off-balance sheet financing arrangements or liabilities, guarantee contracts, retained or contingent interests in transferred assets, or any obligation arising out of a material variable interest in an unconsolidated entity. We do not have any majority-owned subsidiaries that are not consolidated in the financial statements. Additionally, we do not have an interest in, or relationships with, any special purpose entities.

NON-GAAP FINANCIAL MEASURES

In our periodic communications, we discuss certain important measures that are not calculated according to U.S. generally accepted accounting principles ("GAAP"), including adjusted EBITDA, adjusted income, adjusted EPS, free cash flow, organic revenue and acquired revenue.

Adjusted EBITDA is defined as net income before other non-operating adjustments, interest income and expense, income taxes, depreciation, amortization of intangible assets, restructuring and other charges, impairment of long-lived assets, acquisition, financing and other third-party costs, fair value adjustments from purchase accounting, litigation and settlement income and expense, COVID related expenses, and stock-based and other non-cash compensation expense. We use adjusted EBITDA as an important indicator of the operating performance of our business. We use adjusted EBITDA in internal forecasts and models when establishing internal operating budgets, supplementing the financial results and forecasts reported to our board of directors, determining the portion of bonus compensation for executive officers and other key employees based on operating performance, evaluating short-term and long-term operating trends in our operating performance, relative to our performance based on our GAAP results, while isolating the effects of charges that may vary from period to period without any correlation to underlying operating performance. We believe that these non-GAAP financial adjustments are useful to investors because they allow investors to evaluate the effectiveness of the methodology and information used by management in our financial and operational decision-making. We believe that trends in our adjusted EBITDA are valuable indicators of our operating performance.

Adjusted EBITDA is a non-GAAP financial measure and should not be considered in isolation or as a substitute for financial information provided in accordance with GAAP. This non-GAAP financial measure may not be computed in the same manner as similarly titled measures used by other companies. We expect to continue to incur expenses similar to the adjusted EBITDA financial adjustments described above, and investors should not infer from our presentation of this non-GAAP financial measure that these costs are unusual, infrequent or non-recurring.

The following table reconciles our net loss, the most directly comparable GAAP financial measure, to our adjusted EBITDA:

| | | Second Qua | rters Ended | Six Months Ended | | | | |
|---|--------|-------------|-------------------|-------------------|-------------------|--|--|--|
| <u>(In thousands)</u> | Decemb | er 30, 2022 | December 31, 2021 | December 30, 2022 | December 31, 2021 | | | |
| Net loss | \$ | (10,920) | \$ (2,639) | \$ (25,255) | \$ (9,779) | | | |
| Other non-operating adjustments, net | | (1,463) | 226 | 334 | 643 | | | |
| Interest expense, net | | 6,370 | 1,089 | 10,888 | 1,675 | | | |
| Income tax benefit | | (2,151) | (155) | (3,173) | (596) | | | |
| Depreciation | | 13,697 | 8,064 | 22,824 | 15,820 | | | |
| Amortization of intangible assets | | 13,536 | 16,002 | 28,110 | 29,736 | | | |
| Restructuring and other charges | | 2,069 | 3,802 | 3,577 | 16,076 | | | |
| Impairment of long-lived assets | | _ | — | — | _ | | | |
| Acquisition, financing and other third-party costs | | 1,309 | 3,115 | 4,173 | 5,748 | | | |
| Fair value adjustments from purchase accounting | | 177 | (70) | 1 | (1,731) | | | |
| Litigation and settlement expense, net | | 70 | 506 | 1,375 | 882 | | | |
| COVID related expenses | | _ | 274 | 61 | 457 | | | |
| Stock-based and other non-cash compensation expense | | 13,003 | 7,892 | 23,943 | 17,465 | | | |
| Adjusted EBITDA | \$ | 35,697 | \$ 38,106 | \$ 66,858 | \$ 76,396 | | | |

Adjusted income and adjusted EPS exclude the impact of certain items and, therefore, have not been calculated in accordance with GAAP. We believe that exclusion of these items assists in providing a more complete understanding of our underlying results and trends and allows for comparability with our peer company index and industry. These non-GAAP financial measures may not be computed in the same manner as similarly titled measures used by other companies. We use these measures along with the corresponding GAAP financial measures to manage our business and to evaluate our performance compared to prior periods and the marketplace. We define adjusted income as net income before other non-operating adjustments, amortization of intangible assets, restructuring and other charges, impairment of long-lived assets, acquisition, financing and other third-party costs, fair value adjustments from purchase accounting, litigation and settlement income and expense, COVID related expenses, and stock-based and other non-cash compensation expense. The impact to income taxes includes the impact to the effective tax rate, current tax provision and deferred tax provision. Adjusted EPS expresses adjusted income on a per share basis using weighted average diluted shares outstanding.

Adjusted income and adjusted EPS are non-GAAP financial measures and should not be considered in isolation or as a substitute for financial information provided in accordance with GAAP. We expect to continue to incur expenses similar to the adjusted income and adjusted EPS financial adjustments described above, and investors should not infer from our presentation of these non-GAAP financial measures that these costs are unusual, infrequent or non-recurring.

The following tables reconcile net loss and diluted loss per share, the most directly comparable GAAP measures, to adjusted income and adjusted EPS:

| | Second Quarters Ended | | | | | | | | | | | |
|--|-----------------------|----------|------------|--------|----|-------------------|--------|--|--|--|--|--|
| (In thousands, except per share data) | | Decembe | r 30, 2022 | | | December 31, 2021 | | | | | | |

| Impact to income taxes ⁽¹⁾ | | (3,039) | | | | (7,144) | | | | | | |
| Adjusted income and adjusted earnings per share ⁽²⁾ | \$ | 14,742 | \$ | 0.26 | \$ | 21,964 \$ | 0.39 | | | | | |
| | | | | | | | | | | | | |
| Diluted weighted-average shares outstanding | | | | 56,477 | | | 55,693 | | | | | |

(1) Impact to income taxes is calculated by recasting income before income taxes to include the items involved in determining adjusted income and recalculating the income tax provision using this adjusted income from operations before income taxes. The impact to income taxes includes the impact to the effective tax rate, current tax provision and deferred tax provision.

(2) Adjusted earnings per share is calculated using diluted shares whereas Net loss is calculated using basic shares. There was no impact to the calculation of adjusted earnings per share as a result of this for the six months ended December 30, 2022 and December 31, 2021, respectively.

| | Six Months Ended | | | | | | | | | | |
|--|------------------|----------|----------|--------|----|-------------------|----|--------|--|--|--|
| (In thousands, except per share data) | | December | 30, 2022 | | | December 31, 2021 | | | | | |
| Net loss and loss per share | \$ | (25,255) | \$ | (0.45) | \$ | (9,779) | \$ | (0.18) | | | |
| Other non-operating adjustments, net | | 334 | | | | 643 | | | | | |
| Amortization of intangible assets | | 28,110 | | | | 29,736 | | | | | |
| Restructuring and other charges | | 3,577 | | | | 16,076 | | | | | |
| Impairment of long-lived assets | | | | | | — | | | | | |
| Acquisition and financing costs | | 4,173 | | | | | | | | | |
| Fair value adjustments from purchase accounting | | 1 | | | | (1,731) | | | | | |
| Litigation and settlement expense, net | | 1,375 | | | | 882 | | | | | |
| COVID related expenses | | 61 | | | | 457 | | | | | |
| Stock-based and other non-cash compensation expense | | 23,943 | | | | 17,465 | | | | | |
| Impact to income taxes ⁽¹⁾ | | (8,230) | | | | (14,973) | | | | | |
| Adjusted income and adjusted earnings per share ⁽²⁾ | \$ | 28,089 | \$ | 0.50 | \$ | 44,524 | \$ | 0.80 | | | |
| | | | | | | | | | | | |
| Diluted weighted-average shares outstanding | | | | 56,445 | | | | 55,653 | | | |

(1) Impact to income taxes is calculated by recasting income before income taxes to include the items involved in determining adjusted income and recalculating the income tax provision using this adjusted income from operations before income taxes. The recalculation also adjusts for any discrete tax expense or benefit related to the items.

(2) Adjusted earnings per share is calculated using diluted shares whereas Net loss is calculated using basic shares. There was no impact to the calculation of adjusted earnings per share as a result of this for the six months ended December 30, 2022 and December 31, 2021, respectively.

Free cash flow, a non-GAAP measure for reporting cash flow, is defined as cash provided by operating activities less capital expenditures for property and equipment, which includes capitalized software development costs. We believe free cash flow provides investors with an important perspective on cash available for investments and acquisitions after making capital investments required to support ongoing business operations and long-term value creation. We believe that trends in our free cash flow can be valuable indicators of our operating performance and liquidity.

Free cash flow is a non-GAAP financial measure and should not be considered in isolation or as a substitute for financial information provided in accordance with GAAP. This non-GAAP financial measure may not be computed in the same manner as similarly titled measures used by other companies. We expect to continue to incur expenditures similar to the free cash flow adjustment described above, and investors should not infer from our presentation of this non-GAAP financial measure reflect all of our obligations which require cash.

The following table reconciles cash used in operating activities, the most directly comparable GAAP financial measure, to free cash flow:

| | | Second Qua | artei | rs Ended | | Six Month | hs Ended | | |
|---|-------------------|------------|-------|-------------------|----|-------------------|----------|------------------|--|
| <u>(In thousands)</u> | December 30, 2022 | | | December 31, 2021 | Γ | December 30, 2022 | D | ecember 31, 2021 | |
| Net cash provided by (used in) operating activities | \$ | 35,392 | \$ | 6,824 | \$ | (30,647) | \$ | 4,818 | |
| Purchase of property and equipment | | (13,176) | | (8,027) | | (20,504) | | (13,404) | |
| Free cash flow | \$ | 22,216 | \$ | (1,203) | \$ | (51,151) | \$ | (8,586) | |

Organic revenue and acquired revenue are non-GAAP measures for reporting the financial performance of our business. We believe this information provides investors with insight as to our ongoing business performance. Organic revenue represents total company revenue excluding net revenue from acquired companies for the first four full quarters since the entities' acquisition date (which excludes intercompany transactions). Acquired revenue represents revenue from acquired companies for the first four full quarters since the entities' acquisition date (which excludes intercompany transactions). After the completion of four full fiscal quarters, acquired revenue is treated as organic for current and comparable historical periods.

The following tables reconcile the most directly comparable GAAP financial measure to the non-GAAP financial measure for the second quarters and six months ended December 30, 2022 and December 31, 2021, respectively:

| (In thousands) | Dece | ember 30, 2022 | As a % of Total Net Revenue | December 31, 2021 | As a % of Total Net Revenue | \$ Change | % Change |
|------------------|------|----------------|-----------------------------------|-------------------|-----------------------------------|-------------|----------|
| Organic revenue | \$ | 216,318 | 94 % | \$ 214,336 | 97 % | \$ 1,982 | 1 % |
| Acquired revenue | | 13,270 | 6 % | 6,044 | 3 % | 7,226 | 100 % |
| Total revenues | \$ | 229,588 | 100 % | \$ 220,380 | 100 % | \$ 9,208 | 4 % |

| (In thousands) | Dece | mber 30, 2022 | As a % of Total Net Revenue | December 31, 2021 | As a % of Total Net Revenue | | \$ Change | % Char |
|------------------|------|---------------|-----------------------------------|-------------------|-----------------------------------|-------|---------------|--------|
| Organic revenue | \$ | 432,099 | 95 % | \$ 439,349 | | 99 % | \$ (7,250) | |
| Acquired revenue | | 25,068 | 5 % | 6,044 | | 1 % | 19,024 | 1 |
| Total revenues | \$ | 457,167 | 100 % | \$ 445,393 | | 100 % | \$ 11,774 | |

RECENTLY ADOPTED ACCOUNTING PRONOUNCEMENTS

See Note B to our consolidated financial statements (under the caption "Recently Adopted Accounting Pronouncements").

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There were no material changes in our exposure to market risk from July 1, 2022 to December 30, 2022.

ITEM 4. CONTROLS AND PROCEDURES

(a) Evaluation of Disclosure Controls and Procedures

We conducted an evaluation under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer (our principal executive officer and principal financial officer, respectively), regarding the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of December 30, 2022. We continue to review our disclosure controls and procedures and may from time to time make changes aimed at enhancing their effectiveness and to ensure that our systems evolve with our Company's business. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

(b) Changes in Internal Control Over Financial Reporting

There was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the quarter ended December 30, 2022 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are subject to litigation, claims, investigations and audits arising from time to time in the ordinary course of our business. Although legal proceedings are inherently unpredictable, we believe that we have valid defenses with respect to those matters currently pending against us and intend to defend ourself vigorously. The outcome of these matters, individually and in the aggregate, is not expected to have a material impact on our cash flows, results of operations, or financial position.

In June 2021, Embedded Reps of America, LLC ("ERA"), a former sales representative, and James Mazzola, a principal of ERA, filed for binding arbitration related to the termination of ERA's sales representative agreement raising multiple claims that aggregate to approximately \$9 million in direct damages, with treble damages requested on a number of those claims. ERA was a sales representative of Themis when Themis was acquired by Mercury. The sales representative agreement provided for termination by either party upon 30 days written notice with ERA entitled to commissions for orders obtained by ERA with product shipment occurring prior to termination. We responded to the complaint in July 2021. An arbitration proceeding was held during September 2022, with final motions in October 2022 and oral arguments in November 2022. The arbitrator issued its final ruling in January 2023, awarding ERA less than \$0.1 million in damages and fees.

In December 2021, counsel for National Technical Systems, Inc. ("NTS") sent us an environmental demand letter pursuant to Massachusetts General Laws Chapter 21E, Section 4A, and CERCLA 42 U.S.C. Section 9601, related to a site that NTS formerly owned at 533 Main Street, Acton, Massachusetts. NTS received a Notice of Responsibility from the Massachusetts Department of Environmental Protection ("MassDEP") alleging trichloroethene, freon and 1,4dioxane contamination in the groundwater emanating from NTS's former site. NTS alleges in its demand letter that the operations of a predecessor company to Mercury that was acquired in our acquisition of the Microsemi carve-out business that once owned and operated a facility at 531 Main Street, Acton, Massachusetts contributed to the groundwater contamination. NTS is seeking payment from us of NTS's costs for any required environmental remediation. In April 2022, we engaged in a meet and confer session with NTS pursuant to Massachusetts General Laws Chapter 21E, Section 4A to discuss the status of the environmental review performed by NTS and its licensed site professional. In addition, in November 2021, we responded to a request for information from MassDEP regarding the detection of PFAS (per- and polyfluoroakyl substances) in the Acton, Massachusetts Water District's Conant public water supply wells near the former facility at 531 Main Street, Acton, Massachusetts at a level above the standard that MassDEP published for PFAS in October 2020. It is too early to determine what responsibility, if any, we may have for these matters.

ITEM 1A. RISK FACTORS

You should carefully review and consider the information regarding certain factors that could materially affect our business, financial condition or future results set forth under Item 1A (Risk Factors) in our Annual Report on Form 10-K for the fiscal year ended July 1, 2022. There have been no changes from the factors disclosed in our 2022 Annual Report on Form 10-K filed on August 16, 2022, although we may disclose changes to such factors from time to time in our future filings with the Securities and Exchange Commission.

ITEM 6. EXHIBITS

The following Exhibits are filed or furnished, as applicable, herewith:

| The following Exhibits are filed of furnished, as appreciate, herewith. | |

MERCURY SYSTEMS, INC.

Signatures

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized, in Andover, Massachusetts, on February 7, 2023. MERCURY SYSTEMS, INC.

By:

/S/ MICHAEL D. RUPPERT

Michael D. Ruppert Executive Vice President, Chief Financial Officer, and Treasurer

CERTIFICATION

I, Mark Aslett, certify that:

- 1. I have reviewed this quarterly report on Form 10-Q of Mercury Systems, Inc.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION

I, Michael D. Ruppert, certify that:

- 1. I have reviewed this quarterly report on Form 10-Q of Mercury Systems, Inc.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
