Mercury Systems Receives \$2.5M Order for Airborne DAL Safety-Critical Video Server Subsystem

ANDOVER, Mass., June 15, 2017 (GLOBE NEWSWIRE) -- Mercury Systems, Inc. (NASDAQ:MRCY) (www.mrcy.com), announced it received a \$2.5M order from a leading defense prime contractor for an airborne safety-critical video server subsystem. The video server will perform encoding and decoding, as well as switching multiple high definition (HD) video streams. The order was booked in the Company's fiscal 2017 fourth quarter and is expected to be shipped over the next several quarters.

"This order emphasizes Mercury's commitment to providing the best open systems architecture solutions across a broad range of applications," said Ian Dunn, Mercury's Vice President of Sensor and Mission Processing. "Key benefits of our solution for the video sever include a mature technology base, the ability to mix safety-critical levels in the same system, and our expertise in delivering application-level software."

The video server is based on the Mercury's ROCK-2 Avionics Series subsystem, a rugged, 3U OpenVPX mission computing solution. The ROCK-2 subsystem supports mixed safety-critical levels for both the hardware (HWCI) and software (CSCI) via a multi-slot/multi-processor partitioned architecture. ROCK-2 solutions can be delivered with all the documentation and artifacts required for RTCA DO-178C/DO-254 certification to level C or higher.

For more information on the ROCK-2 Avionics Series products, visit www.mrcy.com/ROCK-2 or contact Mercury at (866) 627-6951 or info@mrcy.com.

Mercury Systems — Innovation That Matters™

Mercury Systems (NASDAQ:MRCY) is a leading commercial provider of secure sensor and mission processing subsystems. Optimized for customer and mission success, Mercury's solutions power a wide variety of critical defense and intelligence programs. Headquartered in Andover, Mass., Mercury is pioneering a next-generation defense electronics business model specifically designed to meet the industry's current and emerging technology needs. Forward-Looking Safe Harbor Statement

This press release contains certain forward-looking statements, as that term is defined in the Private Securities Litigation Reform Act of 1995, including those relating to the products and services described herein. You can identify these statements by the use of the words "may," "will," "could," "should," "would," "plans," "expects," "anticipates," "continue," "estimate," "project," "intend," "likely," "forecast," "probable," "potential," and similar expressions. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected or anticipated. Such risks and uncertainties include, but are not limited to, continued funding of defense programs, the timing and amounts of such funding, general economic and business conditions, including unforeseen weakness in the Company's markets, effects of continued geopolitical unrest and regional conflicts, competition, changes in technology and methods of marketing, delays in completing engineering and manufacturing programs, changes in customer order patterns, changes in product mix, continued success in technological advances and delivering technological innovations, changes in, or in the U.S. Government's interpretation of, federal export control or procurement rules and regulations, market acceptance of the Company's products, shortages in components, production delays or unanticipated expenses due to performance quality issues with outsourced components, inability to fully realize the expected benefits from acquisitions and restructurings, or delays in realizing such benefits, challenges in integrating acquired businesses and achieving anticipated synergies, increases in interest rates, changes to export regulations, increases in tax rates, changes to generally accepted accounting principles, difficulties in retaining key employees and customers, unanticipated costs under fixed-price service and system integration engagements, and various other factors beyond our control. These risks and uncertainties also include such additional risk factors as are discussed in the Company's filings with the U.S. Securities and Exchange Commission, including its Annual Report on Form 10-K for the fiscal year ended June 30, 2016. The Company cautions readers not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. The Company undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made.
