## **Mercury Systems Receives \$3.2M High Density Secure Memory Order for Advanced C2I Airborne Application**

ANDOVER, Mass., Oct. 12, 2017 (GLOBE NEWSWIRE) -- Mercury Systems, Inc. (NASDAQ:MRCY) ([www.mrcy.com](http://www.mrcy.com)) announced it received a \$3.2 million follow-on order from a leading defense prime contractor for high-speed, rugged memory devices integrated into an airborne command, control, and intelligence (C2I) computing system. The order was booked in the Company's fiscal 2018 first quarter and is expected to be shipped over the next several quarters.

Mercury's broad portfolio of BuiltSecure™ high density secure memory products include double data rate third- and fourth-generation synchronous dynamic random-access memory (DDR3 SDRAM and DDR4 SDRAM) in military-hardened, low-profile ball grid array (BGA) packages. Manufactured exclusively in a Defense Microelectronics Activity (DMEA)-accredited facility, trust and supply chain security are assured throughout the complete product life cycle.

"This order further confirms Mercury's leadership position in the design and volume manufacturing of high density secure memory devices for programs critical to our nation's military success," said Iain Mackie, Vice President and General Manager of Mercury's Memory and Storage Solutions group. "Our Advanced Microelectronics Center is honored to continue supplying secure, affordable and SWaP-optimized microelectronics to our valued defense prime contractor customers."

### **Forward-Looking Safe Harbor Statement**

This press release contains certain forward-looking statements, as that term is defined in the Private Securities Litigation Reform Act of 1995, including those relating to the products and services described herein. You can identify these statements by the use of the words "may," "will," "could," "should," "would," "plans," "expects," "anticipates," "continue," "estimate," "project," "intend," "likely," "forecast," "probable," "potential," and similar expressions. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected or anticipated. Such risks and uncertainties include, but are not limited to, continued funding of defense programs, the timing and amounts of such funding, general economic and business conditions, including unforeseen weakness in the Company's markets, effects of continued geopolitical unrest and regional conflicts, competition, changes in technology and methods of marketing, delays in completing engineering and manufacturing programs, changes in customer order patterns, changes in product mix, continued success in technological advances and delivering technological innovations, changes in, or in the U.S. Government's interpretation of, federal export control or procurement rules and regulations, market acceptance of the Company's products, shortages in components, production delays or unanticipated expenses due to performance quality issues with outsourced components, inability to fully realize the expected benefits from acquisitions and restructurings, or delays in realizing such benefits, challenges in integrating acquired businesses and achieving anticipated synergies, increases in interest rates, changes to export regulations, increases in tax rates, changes to generally accepted accounting principles, difficulties in retaining key employees and customers, unanticipated costs under fixed-price service and system integration engagements, and various other factors beyond our control. These risks and uncertainties also include such additional risk factors as are discussed in the Company's filings with the U.S. Securities and Exchange Commission, including its Annual Report on Form 10-K for the fiscal year ended June 30, 2017. The Company cautions readers not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. The Company undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made.
